ALL EXPECTATIONS EXCEEDED IN PRODUCTS SHOW ENTRIES

With Exhibits Rivalling Any County
Fair, Event Opens in Full Swing
Here Today

118 HOGS ARE ENTERED

Judging Begins in Ladies Depart-
ment This Afternoon With 188
Exhibits in Place

POULTRY CLASSES ARE FILLED

With More Than 160 Entries, More
Coops Had to be Imported to
Meet the Demands

The Rush County Products Show with exhibits rivalling any county fair, was opened in full swing today with entries in every township class and in every department of the show. Awards totalling more than \$1,200 will be made in the five departments, the corn show, hogs, poultry, ladies department and the girls' club work.

Judging in most of the classes was to begin this afternoon, and by noon tomorrow it was expected that the awards would be made in the various classes.

The ladies' and girls' departments were arranged in the court house, while the poultry, corn and hog show is being held at the Kirkpatrick garage in South Morgan street.

The cooking department in charge of Mrs. E. J. Chambers, was divided into six classes and a total of 188 entries were recorded today. In these classes, cakes led the list with 92 entries, and in the next class ranked bread with 40 entries. There also are 25 entries in pies, 12 in sugar cookies and 8 entries in the corn pone class. Miss Grace King of Purdue will act as judge in all classes of the ladies departments.

Mrs. Oscar Rees has charge of the girls' club entries which include needlecraft. The 4H sewing club, conducted under the auspices of Purdue University, has six girls in the first year class and a like number in the second year class, and their exhibits are on display. There also are several entries in another class for girls who are now members of the club work.

Each township is well represented in the corn show, which is in charge of Superintendent W. A. Alexander, and in which there are a total of 165

DR. ALFRED HENRY SPEAKS TO ROTARIANS

Indiana Leader in Anti-Tuberculosis
Work Says Disease Can be Cured
Here as Well as Anywhere

SONGS BY NEGRO CHILDREN

Dr. Alfred Henry, an Indianapolis Rotarian and leader in anti-tuberculosis work in Indiana, addressed the Rotary club at the weekly luncheon today, stressing the importance of controlling the disease by an early diagnosis. He presented statistics to show the progress which was being made in the fight, calling attention to the fact that the death rate had been considerably decreased in Rush county in the last twelve years.

A group of sixteen children from Washington school sang some negro spirituals and demonstrated what they were doing in music in the school under the direction of Miss McConnell. They were loudly applauded. Following the meeting, all of the Rotarians visited the County Products Show in a body.

Dr. Henry pointed out physicians were changing front on a cure for tuberculosis for they had learned it was not necessary to change climates. There is no specific cure, as in infectious diseases or surgical cases, he stated, which makes it hard to fight, but there is a cure which is a combination of things, bed rest, air, good food, peace of mind and medical attention.

RULING GIVEN ON ATTENDANCE LAW

Important Decision Handed Out in
Connection With The Education
Week in The Schools

COMPULSORY LAW IS DEFINED

Pupils Finishing Eighth Grade And
Not 16 Years Old, Must Contin-
ue in High School

An important ruling on the attendance law which has been widely misconstrued, has been given out by U. S. Lesh, attorney general for Indiana, as a part of the American Education Week, which is being celebrated throughout the county this week by the public schools.

The week is being devoted with exercises and programs in order to bring the public into closer relationship with the school system.

A child who has completed the eighth grade and has not reached his sixteenth birthday, must continue into high school even if there should not be a high school in the township in which the pupils resides, is the decision handed out today on the law.

The opinion is of interest in Rush county as the same question has arisen several times during the last few months. County authorities have held that children must continue their education until they have attained the age of sixteen years and if no high school is maintained in the township in which they live their parents are required to provide transportation to a high school in some other corporation.

The question arose with the enforcement of the compulsory attendance law enacted by the last Indiana Legislature. Many parents were of the opinion that if their children completed the Eighth grade before they were sixteen years old the law did not apply to them. In Posey county a judge dismissed a case filed against a father on the ground that the township provided no high school. The ruling of the attorney-general is contradictory to that decision.

Some parents in Rush county whose children come within the law contended that it was the duty of the trustee of the township to provide transportation facilities for a child who is required to attend high school in some other township. Local authorities held that there is no fund from which that transportation must be provided by the parents. The trustee, however, is required to pay the tuition of a child that attends school outside of the township in which he lives. The contention of the local school authorities has been upheld by the state educational authorities.

"The law looks to substance and

CITY COUNCIL WILL MEET

Present Officials Have One More
Meeting Together After Tonight

The city council will meet tonight in their first regular session for December, it being three weeks since their last meeting on November 15. The council will have only one more regular meeting before the new officials take office, excepting a noon meeting on January 2, when the new officials will take office.

The matter of purchasing a motor fire pumper will most likely be disposed of tonight. The councilmen have been ready to make a purchase for several days, following their visit to the various factories, but on account of the absence of Mayor Scudder, the matter had been postponed. It is understood that the matter will be disposed of tonight, even in case of the absence of the mayor.

GLEE CLUB HERE THURSDAY

Next Attraction of Mattox Circle
Course at M. E. Church

The next attraction on the winter entertainment course which is being given here under the auspices of the Mattox Circle, ladies of the G. A. R., will be held at St. Paul's M. E. church Thursday evening. It will be a concert by the Kenilworth Glee Club, a lyceum organization that was highly recommended to the Rushville organization of women.

The concert will be given at 8:30 p. m. so as not to interfere with any other meetings that evening. The glee club is composed of four young women vocalists and a reader of exceptional merit. It is stated that this is an attraction of great worth, in proof of which is cited the fact that 75 cents is charged for the concert in many places.

HARDING OFFERS A DEFINITE PLAN

President Proposes to Congress
Comprehensive Program For Re-
storing Country to Normalcy

NOT TRYING TO "SAVE" OTHERS

America Will Help Unselfishly When
Other Countries Turn to Heroic
Remedies For Menaces

(By United Press)

Washington, Dec. 6.—President Harding today proposed to congress a definite and comprehensive program for restoring the United States to normalcy.

Speeding up of plans to put America again on a sound, normal basis is America's best contribution to a world-wide restoration, the president said, with representatives of all the world powers here for the arms conference in the galleries of the House.

Harding served notice that the United States has no intention of trying to "save" other nations. They must save themselves, he said.

America will help unselfishly when they "turn to the heroic remedies for the menacing conditions under which they are struggling." No American policy alone will cure the world's ills Harding said. By saving ourselves, he declared, he will help the rest of the world save itself.

The president's policy was clearly outlined in discussing the need for a high tariff.

"Sensible of every obligation of humanity, commerce and finance, linked as they are, in the present world condition it is not to be argued that we need to destroy ourselves to be helpful to others," he said. "It were better to remain on

AUTO ACCIDENT IS BASIS FOR A SUIT

Joseph Schulte Demands \$400 From
Cortez Tonges After Mix-up
South of Sandusky

SAID DRIVER WAS RECKLESS

Joseph Schulte today filed suit in the circuit court against Cortez Tonges of this county, the complaint being for damages as the result of a collision between two automobiles on a road about a mile south of Sandusky, early this fall.

Schulte alleges that he was driving his Ford on the Rushville-Greensburg highway, and that Tonges ran into his machine at the intersection of a road, without giving warning of his approach. The defendant is charged with operating his high powered automobile in a reckless and careless manner.

According to the complaint the Ford was badly damaged in the collision that followed, and it is upon this that the suit was filed. Each of the two paragraphs demand \$200 judgment for the alleged damage to the Ford.

The plaintiff in the action is represented by C. W. Duncan, attorney.

SEEKS CLEMENCY FOR HIS CRIME

Victor Ellerman, Rush County Man
Presents Plea With The State
Board of Pardons

WAS REFUSED ONCE BEFORE

Letter From Fellow Prisoner Told
of His Threats and His Former
Plea Was Turned Down

In the list of cases before the state pardon board for clemency, which will be in session during the week of December 12, appears the name of Victor Ellerman, sentenced from Rush county October 30, 1919 for a term of one to fourteen years on a grand larceny charge. His case is one of 44 appeals from prisoners asking for release from the state institutions.

This is the second attempt of Ellerman to gain his freedom since he was committed to the state prison. He was sentenced from here for grand larceny, in connection with the theft of paint from William J. Knecht, north of Rushville.

Following his arrest and conviction, he escaped from Sheriff Jones at the I. & C. traction station on the morning of his departure to the state prison, but he was caught late in the day near Shelbyville. Shortly before he applied for clemency about a year ago, a prisoner wrote to Prosecutor Stevens here, stating that Ellerman had made remarks as to what he was going to do when he got out of prison.

According to the letter, Ellerman threatened to do someone harm, and also intimated that he would burn the house of the man who had him sent to prison. This letter was turned over to the pardon board, and his pardon at that time was refused. His case will be opened again when the board is in session next week.

MRS. ANN MADDEN, 79 DIED EARLY TODAY

Wife of Bernard Madden Expires
After Long Illness Leaving Hus-
band and Five Children

WAS BORN IN IRELAND

Mrs. Ann Madden, wife of Bernard Madden, died this morning about 6:30 o'clock at the family home, 833 North Main Street, death being caused from cancer. The deceased had been in poor health since April.

Mrs. Madden was born 79 years ago in Ireland, but had lived in Rushville for the past 46 years, having moved from Richmond to this city. She had been in declining health for some time, but her last illness began in the spring.

The husband and five children survive, who are Bernard T., Lawrence, Frank, Jennie and Theresa, all of whom reside at home in this city. The deceased also is survived by a sister, Mrs. Mary Kelley of Indianapolis.

The funeral arrangements were not completed today.

LEGION TO HAVE SHOW

Musical Comedy, "Oh, Oh, Cindy"
Will be Staged in January

Another big home-talent show is being planned for the latter part of January, it was announced today, and the Rogers Producing Company has been engaged to put the show on for the benefit of Rush Post No. 150, American Legion. The musical comedy, "Oh, Oh, Cindy" has been selected and a cast of over 150 people will be selected to have part in the play.

The Rogers company is the same which successfully put on "Katcha-Koo" and "All Aboard" in Rushville recently. The exact date of the show has not been made public, but it will be given two nights at the Graham Annex auditorium.

Irish Peace Terms

Birmingham, England, Dec. 6.—Ireland, under the peace settlement, signed by representatives of the British and Sinn Fein governments will be known as the "Irish Free State," Lord Chancellor Birkenhead announced today.

The provisions of the agreement as outlined by Birkenhead are:

The new dominion is to be known as "the Irish free state."

It is to have the same status as Canada, Australia, New Zealand and South Africa, with one reservation.

In matters of finance the free state government will rule supreme.

The government must pay a portion of the national war debt.

Sinn Fein must give reasonable guarantee to South Ireland Unionists minority.

If Ulster does not want to join the free state she may retain her own status. In that case she will submit to the rule of a boundary commission which will determine the boundary line between Ulster and the free state.

If parliament does not sanction these terms Birkenhead predicts the government will go before the people and issue and submit to a general election.

"This pact was signed in the same room in Downing street that the decision to enter the world war was made. Now it has a new phase of British history.

TOKIO APPROVES THE NAVAL RATIO

Report Says Japanese Diplomatic
Advisory Council Consents to
Hughes 5-5-3 Plan

CONFERENCE AWAITS REPLY

Every Reason to Believe Japan Will
Also Accept Big Three Plan In-
volving Scrapping Alliance

(By United Press)

Tokio, Japan Dec. 6.—The Japanese diplomatic advisory council has approved the 5-5-3 naval ratio, the United Press was reliably informed today.

Washington, Dec. 6.—With the arms session virtually suspended waiting on the Japanese reply to the quadruple agreement on the naval ratio proposal, the Far Eastern conference today had reached a delicate stage.

There appeared every reason to believe Japan will accept the big three plan involving scrapping of the Anglo-Japanese alliance and substitution of the four-crowned agreement.

The Tokio answer may be delayed several days. Meanwhile the Far Eastern parley was in an argumentative and controversial condition.

The Chinese dissatisfaction with acceptance in principle and delay in action on concrete proposals had flamed out in the resignation of Secretary General Dr. Tyan, also a minister to Cuba.

The Chinese held the Japanese were unmanageable and played a dilatory game, and were wanting certain territories in the Far East to which they had no right.

Following the example set by Secretary General Tyan, three of the Chinese delegates' chief advisors, General Huang Fu, Tai Ting Kan and Chow Tsi Thi resigned their places today.

QUARREL OVER MOONSHINE

Chicago, Dec. 6.—Mrs. Lucy Blake shot and killed her husband, Walter, today in a quarrel over moonshine liquor.

NEGOTIATIONS ARE SNATCHED FROM FLAMES

Eleventh Hour Agreement Between
Britain and Sinn Fein Reached
in Small Hours of Morning

PACT RUSHED TO BELFAST

Her Acceptance of Peace Terms is
Regarded Most Probable—Two
Parliaments to Consider It

AUTHORITIES ARE CONFIDENT

Believe Agreement Reached When a
Breakdown Seemed Imminent, Will
Be Approved by All Factions

BY ED. L. KEEN

London, Dec. 6.—The Irish peace negotiations were snatched from the flames today.

An eleventh hour agreement between Britain and Sinn Fein was reached in the small hours of the morning in Downing street after hours of heated discussion. The pact was rushed to Belfast for the sanction of Ulster. Her acceptance was considered most probable.

At a British cabinet meeting shortly after noon, the agreement was approved.

King George sent a message to the premier expressing his joy at the news. He wrote:

"I am overjoyed at the splendid news and I congratulate you heartedly."

Authorities are confident the agreement would meet the approval of all factions.

Details will be submitted for publication Wednesday morning.

The news of the agreement sent a thrill throughout England. London had been prepared for the gloomy news of a breakdown and then at the eleventh hour, as the fragile negotiations hung by the tiniest thread over a chasm of despair, after months of fruitless work and worry over the terms a ray of light struck out of the darkened sky and flashed on the door at No. 12 Downing street at 2:15 a. m.

Weary delegates, worn by hours of brain conflict, straggled out and climbed into their cabs to go home to bed.

The Irish question had been met. "The news is not so bad," a cabinet member said. "An agreement has been reached."

"It was learned the agreement was signed by Premier Lloyd George, Austen Chamberlain, Lord Birken-

DAMAGE SUIT GETS UNDER WAY IN COURT

Case of John Jackman of Milroy
Against Big Four, Halted Monday
Begun Before Jury

JUDGMENT FOR HOGS SOUGHT

The damage suit of John Jackman against the Big Four railroad, got under way this morning in the circuit court after being continued from yesterday, when a witness could not attend the trial. The jury which was selected yesterday, was sworn in this morning and the evidence begun.

The suit may continue until about a year ago that in October of 1920, the plaintiff shipped two car loads of hogs from Crawfordsville to Milroy over the Big Four, and that there were 45 head of the hogs that did not reach there destination. The plaintiff seeks \$800 judgment for the hogs which he alleges were not delivered.

The plaintiff in the suit is represented by Tittsworth and Tittsworth, and the railroad by Donald L. Smith of this city.

Fine for Lumbago

Musterole drives pain away and brings in its place delicious, soothing comfort. Just rub it in gently.

It is a clean, white ointment, made with oil of mustard. It will not blister like the old-fashioned mustard plaster.

Get Musterole today at your drug store. 35 and 65c in jars and tubes; hospital size, \$3.00.

BETTER THAN A MUSTARD PLASTER

Price vs Quality

BY WM. G. MULNO

When a man enters a clothing store with the intention of buying a suit, there are two factors prominent in his mind—price and quality.

With some men, the two words would stand in the order in which they were just written, while with others, the order would be reversed.

With so many demands upon a man's income, price is, of necessity, an important consideration; every man is eager to be as well dressed as possible upon the sum that he feels able to spend for clothing and still keep within his means.

But there is one thing to be borne in mind—quality is remembered long after price is forgotten. One often hears the remark, "This is a fine wearing suit." But you seldom hear, "This suit did not cost much."

A suit that falls to pieces or soon loses its shape is dear at any price. If a man buys a cheap suit which looks good in the store and which he thinks "will do," he does not stop to consider that in a short time he will be in the same position, buying another suit; when if he had paid a little more the first time and not allowed an attractive price tag to overcome his scruples as to its wearing quality, he would still be wearing a shapely suit and be several dollars ahead.

Quality is economy whether applied to a suit of clothes or to an automobile. Inferiority in either will cost more in repairs and in trying to make it look presentable—more in time and money than the average man can afford to pay. Another thing: throughout the possession of either suit or auto he feels no confidence in it, nor can he feel proud of its appearance at any time.

The clothier who sells good clothing at a fair margin of profit is the man to patronize, for in dealing with him one is following the lines of true economy. And nowadays "Economy" and not "Variety" seems to be the "Spice of Life."

Know a man by his clothier!

head and Winston Churchill for Britain and Arthur Griffith, Michael Collins and George Harton for Sinn Fein.

The news was given too late for comment in the early morning papers but observers today were hailing Lloyd George for his success in exhibiting his characteristic strategy before his eleventh hour master stroke.

The British leader gave both Sinn Fein and Ulster refusals which drew from them the maximum concessions.

Furthermore he set a time limit by promising Sir James Craig that "if you do not hear from me by Tuesday, you will know negotiations have been broken off."

This whetted the eagerness of the negotiators and added to the effectiveness of the dramatic last minute study of the crisis.

The suspend, of course, was continued until the definite answer of Sir James Craig is received, though it is confidently believed Ulster cannot now refuse an experiment in an all-Irish parliament.

There is only speculation as to the contents of the new document, but it is expected the plan embodies a dominion parliament from which Ulster will be privileged to withdraw.

It is believed the question of an oath of allegiance to the king is avoided by the triple oath "to the Irish Free State, the Empire and the King."

Some say that there has been a clause inserted in the oath which prescribes recognition to "the head of a community of nations known as the empire," instead of mentioning the king, but this was merest speculation.

The agreement also revived the belief that Lloyd George will be able to leave for Washington Saturday.

A further test of the wariness of the clever premier was made when he goes before the parliament. It is, of course, known that numerous individuals for political reasons will seek to frustrate the slightest infringement of England's authority to oppose his stand. However, it seemed most probable that none will have the nerve to seriously challenge him on the eve of what is probably greatest success. It is thought any attempt at revolt will only be temporary. The result will undoubtedly be a further strengthening of the Lloyd George power.

The Freeman's Journal in Dublin hails the news with delight. "The minority in Ireland no longer will be able to prevent a peace with honor," it states. "Ireland needs no assurance that the terms are in harmony with the principle for which she stands."

"Lloyd George was aware from the first that these principles contain no menace to the interests of Great Britain. The fact at last appears clear to British statesmen."

"Ireland has given the strongest of all proofs of her desire for peace."

She now looks to Lloyd George and his colleagues to do their part to protect her from any resultant opposition."

RULING GIVEN ON ATTENDANCE LAW

Continued from Page One

not to shadows", said Mr. Lesh, "and correctly construed, it never requires an impossible or foolish thing to be done. It would be useless and foolish to require a pupil who has completed the elementary schools to re-enter them simply because he is less than sixteen years of age, or because there is no high school near at hand."

"The law has placed a high school education within the reach of all children. Such schools form parts of the public school system and the legislature has required that pupils shall attend them where they finished the lower grades before becoming sixteen years of age. There

is nothing in the law to excuse him from attending on account of the fact that his school corporation has no high school. It is, therefore, my opinion that where a child is a graduate of the eighth grade and there is no high school in the corporation where he resides, he is required to attend a high school of some other school corporation, where he can be better accommodated or some other high school taught in the English language and the fact that no high school exists in his school corporation will not exempt him from further school attendance."

All Expectations Exceeded In Products Show Entries

A MUSEMENTS

Rosemary Theby at Mystic

"Good Women", the Robertson-Cole super-special, directed by Louis J. Gasnier, will be seen for the last time tonight at the Mystic Theatre. This unusual production, from the pen of C. Gardner Sullivan, has pleased the audience at every performance.

"Good Women" answers the question with regard to just how far a woman may go in disregarding modern conventions. Just how far she may transgress, and then through mental expiation, be received again within the realm of decency. The picture presents a problem which you have met in everyday life but which you have dismissed without the proper amount of consideration.

Katherine Brinkley, played by Rosemary Theby, believes that slavishly following the conventions of modern society is unworthy of the freedom which is woman's birthright. Following a series of adventures in New York's gay Bohemia, she eventually runs away with Nicolai Bronevitch, a Russian pianist, under the impression that she has at last met her soul mate. Bronevitch is a married man.

The pianist, who is vain emotional and shallow, tires of the girl at about the time she discovers the mistake she has made. He returns to his wife and Katherine finds herself facing the cold reality that she has brought upon herself. It is then

she realizes how little actual freedom she possesses and the real reason for following the conventions.

Wanda Hawley at Princess

Lincoln Plumer, who first appeared in screen comedies with the Sidney Drews, has an amusing role in Wanda Hawley's latest picture, "Her Face Value", which will show for the last time at the Princess today. Miss Hawley portrays a chorus girl who graduates into the movies, and Mr. Plumer enacts the role of the heroine's shiftless father, who sponges on his hardworking and generous daughter. T. Roy Barnes will be seen as leading man.

The first picture to present Gloria Swanson as a star in her own right is "The Great Moment", by Mme. Elinor Glyn, a Paramount picture, which comes to this theatre Wednesday and Thursday.

Miss Swanson has the role of a half gypsy girl who tries vainly to still the tumult in her heart engendered by her partially nomadic ancestry, and the role is said to fit her wonderfully.

Miss Swanson had just completed her work in the all-star cast of Cecil B. De Mille's "The Affairs of Anatol" when she was called upon to embark on her first stellar production. With her accustomed vigor she entered upon her duties with a full determination to excel anything she had done before.

LETTERS TO SANTA CLAUS

Dear Santa: Please bring me a sled and anything else you want to bring. Don't forget my little friend Grace Junken. She wants a doll.

Your little boy,
WM. J. GOODSON

Dear Santa Claus: For Christmas I would like a basketball, a bee bee gun, a typewriter and a cornet. Please bring me some nuts, candy and some oranges. Don't forget my mother, father and sisters.

Your loving boy,
WM. ROBERT ELDER.

Dear Santa Claus: For Christmas I would like a walking and talking doll, a bedroom set, a piano, and a doll house, and candy, nuts, oranges. Don't forget my mother

father and sisters, and my brother.

IRIS MARIE ELDER
P. S. Please bring me a doll cab also.

Dear Santa Claus: Please bring me a doll, a set of dishes, a toy machine, a tricycle and candy, nuts and oranges.

Yours truly,
MARY E. MILLS.

Dear Old Santa Claus: I am a little boy nine years old and have a little brother Robert William, that is five years old and as things are so high, I was afraid you'd miss us this year. Please bring me a coaster wagon and Robert William a tricycle, also some candy and nuts. Ever your little friend,
DALLAS BUCHANAN

HARDING OFFERS A DEFINITE PLAN

Continued from Page One

firm ground, strive for ample employment and high standards of wage at home and point the way to balanced budgets, rigid economies and resolute efficient work as the remedies to cure disaster."

The arms conference was referred to only briefly by the president.

"It is easy to believe a world hope is centered in the capital city," he said. "A most gratifying world accomplishment is not impossible."

Outstanding in the president's recommendations for bringing this country back to normal conditions were:

Creation of a virtual industrial court to have judicial power to deal with labor disputes affecting public interest.

Prompt enactment of the permanent tariff bill with adoption of the American valuation plan and a provision for fixing of variable duties by presidential order.

Revision of the shipping act to be based on the recommendations shortly to be made in a special message.

Enactment of the allied debt funding bill.

Encouragement of co-operative market programs to aid farmers.

A constitutional amendment to prohibit non-issuance of taxable securities.

Extending the reclamation legislation to aid soldiers and to provide more homes.

Some revision of the tax bill recently passed.

Do Want Ads Pay? Ask your neighbors.

Seals Honor Roll

The sum of \$63 was added to the amount realized from the sale of Christmas Seals today, bringing the total to \$169 raised in Rushville alone. The names of three Health Bond purchasers appear in the list today, including two for \$25 which were sold to the Peoples National and Rush County National banks. The following sales have been reported.

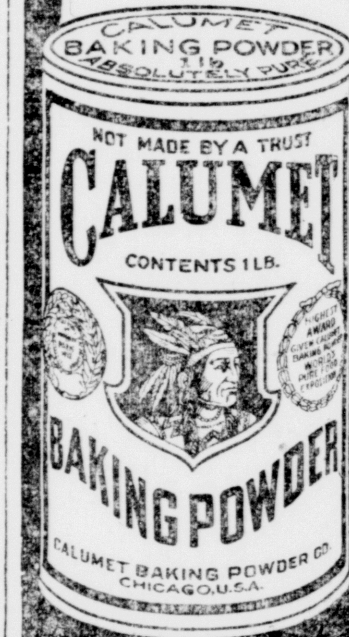

W. E. Thomas, Health Bond	\$ 5.00

Don't try to save money buying cheap or big-can Baking Powders. You can't do it. You'll throw out more in spoiled bakings than you save on price of the powder. And don't think that old style high priced powders are best because they cost most. They are not.

CALUMET BAKING POWDER

has proved in millions of bake-day tests that it is the best baking powder ever made—that's why it is the biggest selling baking powder in the world today. No other baking powder makes such temptingly good—tender, wholesome bakings. No baking powder of anywhere near the same quality is sold at such a low price.

You use less of Calumet—because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of many other brands.

And there is no "luck" about it when you use Calumet. No loss. It is absolutely sure, it is the most economical of all. Millions of housewives use it—and so do leading domestic science teachers and cooking experts.

You save when you buy it. You save when you use it.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

HIGHEST QUALITY AWARDS

GET BEST RESULTS WITHOUT LOSS

NOTE THIS

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

SOME SHOE

(For Men or Women Only)

I was once a worried shoe clerk, Working every day to find A shoe to give a perfect fit, And also please the mind.

I tried to fit them wider; I tried to fit them long, But it always seemed impossible Because the shoes were wrong.

I studied all the magazines, Of arch supports and shoes. I took a correspondence course And yet I seemed to lose.

But all my troubles faded, And life now seems worth while, For Selby's Arch Preserver Shoes Made every wearer smile.

Music Interest

It is both interesting and encouraging to lovers of music to note the interest which is being revived in

music in Rushville through the activity of Miss Sarah McConnell, the supervisor of music in the public schools. School children are being imbued with a new appreciation of music and their parents and other grownups who come in contact with them are feeling the effects of their enthusiasm.

To the average boy, music in the public school course was always a nightmare. The rough and tumble youngster who in the springtime longs for a tramp in the woods while school is in session, and in the wintertime never satisfies his desires for a romp in the snow, never could understand the need of "wasting time" in learning the scale or how to read notes.

Many a boy has almost lost interest in school because of the deadly tediousness of music and his failure to make any headway at it. Not many boys are so constituted that they can sing or enjoy singing. If there is a way to bring them into an appreciation of good music, it is possible that they will be patient enough to learn the rudiments of music.

Youngsters are being provided

with a new interest in the course through the organization of orchestras. This gives them a goal, something to work for when they are learning the tiresome scale and becoming familiar with the numerous signs which is necessary in music reading.

With such an "atmosphere" created in the schools, it is not difficult to direct the music sentiment of the community into new channels. The organization of a community orchestra is very commendable and will be of immense benefit to Rushville. It satisfies the desires of the musicians who enjoy playing as other people enjoy their diversions from work. And it likewise arouses a new community interest and pride which is necessary to healthful growth.

From a successful community orchestra, it is but a step to community singing and the development of a new neighborliness and better understanding between people. The value of community singing was demonstrated during the war in patriotic drives because singing was found as one means of reaching a man's pocketbook. It inspires men and women and is productive of a common bond of fellowship which is bound to bring about good in every community activity.

Two peace developments that the conference seems to have overlooked. The ex-kaiser's chromo in the German embassy at Washington has been tossed into the ash-can with the rest of the rubbish, and the Krupps are making cream separators.

It would be crudely discourteous of course, to call Admiral Kato a son of a gun. Besides, it might start another war, than which we are on nothing else more fed up. Just the same, his biographer declares him to be the son of a shogun.

If we are to believe Granny Grouch, the girls wear their skirts at half-mast out of respect to dead Innocence.

The man who first called it X-mas must have done so because he managed to squeeze past with one ten-dollar bill.

From The Provinces

Can't Beat Them, So Annex Them
(Ohio State Journal)

The Springfield Republican refers to Cleveland as a near-Eastern city, and we suppose this is the first step to annex Mid-Western football and claim it's Eastern, as it does not seem to be able to do much of anything else with it.

Also Her Front and Sides
(Houston Post)

Still, the beautiful young actress who had her costume censored by our Board of Censors needn't think Houston is exactly mad at her and don't want her ever to return. We will all be glad to see her back again.

She Must Be a Good-Looker
(Buffalo Express)

We didn't have the heart to enlighten her after the sweet young thing told us that she hoped the naval holiday would fall on a Monday, so the working people would have Saturday and Sunday off, too.

Something Henry Overlooked
(Birmingham Age-Herald)

Mr. Ford hasn't stopped to consider that if he creates great industrial enterprises in the South a considerable part of our population will be able to ride in more expensive cars.

Many Thanks, Sir
(Pittsburg Gazette-Times)

One of the writers on the Washington Conference has decided to postpone the American-Japanese war, and, possibly, he will not have it at all. He is truly magnanimous.

Current Comment

The American Atmosphere
(New York Tribune)

The free countries of Europe, in the form of their institutions, are as democratic as the United States—in some respects more democratic. But that, after all, there is a difference has been shown in Washington during the last few days.

One can't easily imagine the British House of Commons or the French Chamber of Deputies present as guests at a solemn international gathering openly and vociferously cheering on favorite orators. "This is delicious," remarked one foreign observer. "It marks the democratization of the conference."

Nor is it easy to imagine, while the echoes of the first fall of the gavel lingered in the air, the chairman saying in effect: "Gentlemen, we are assembled for business. Let's get down to it at once. I propose the following plan." Such startling directness is not in the European fashion.

Even more notable has been what has happened since. Much discussion has occurred over whether the meetings should be open or closed. The debate was unnecessary. This country is one where publicity is screaming and where the press knows how to get at the facts needed to satisfy public curiosity.

Though the most positive mutual pledges had been given by the delegates to keep mum, secrecy was the executive sessions of the Senate has developed a technique of uncovering the covered. The process is simple. Some link in the chain of silence is not strong enough to resist the temptation to get the case before the public. When one talks others must talk, unless willing to have an issue go to the public in a one-sided manner. Abroad it is good newspaper manners to respect hints from the government to keep still. Here anything deliberately held back has special news value, and there is an unholy seal to publish it. Censorship thus quickly withers.

The American atmosphere has affected the methods of the conference and perhaps will affect its conclusions. The enthusiasm of a crowd is infectious. It takes an unusually strong personality to resist envying influences. Nor on balance does it appear that good results are lessened by America's tumultuous way of handling even the gravest and most dignified of problems. Dignity suffers and the feathers of propriety are ruffled, but business gets done.

Washington—Somebody stole a case of champagne from the French delegation. Four extra secret service men have been put on guard.

A WOMAN'S WAY

"I tried for four months to get my wife to try Mayr's Wonderful Remedy, which I know had helped a friend of mine who also suffered from stomach trouble. She insisted her case was different. I finally had to bribe her with a new dress. The first dose produced remarkable results, clearing up her complexion and restoring her appetite. She can now eat things she hadn't been able to for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists everywhere.—Advertisement.

IOWA HAS HOPES WITH GRID STAR

Devine, Quarter Back on Football Squad, is Being Drilled For Back Guard Position on Net Team

VETERANS ALSO TURN OUT

Coach Has Four of Last Year's Men Ready For Position And Many Candidates Aspire

Iowa City, Dec. 5—Much hope for the success of the Iowa basketball quintet this year rests upon the shoulders of Aubrey Devine, fleet quarterback, who carried the Hawkeyes through a sensational season on the gridiron.

Devine is being drilled for back guard, left vacant by Kaufman, the only letter man to graduate last spring. Other posts will be fortified by veterans.

Four of the candidates on the large squad which is reporting daily have played together for three campaigns. Headed by Captain Frank Skimek, who is slated for running guard, Coach Jimmy Ashmore has has Lohman, Forhwein and McGovney, all seasoned Big Ten performers.

Forhwein and Lohman are battling for forwards against a fast field of yearlings, with McGovney also a contender. The latter's rise last winter from third-string to the Varsity was one of the greatest feats of the year.

Center aspirants are numerous. Of the four leaders, all of whom seem on a par, Barten, star of the freshman squad, appears to have an edge, mainly due to his size and speed. He is an accurate basket ringer, and has had a world of experience, placing on the all-state selections in high school.

For reserves Coach Ashmore can depend upon Weltmer and Brentiss, guards, both of whom won letters. Gordon is another who may figure prominently before the season advances far.

A barnstorming trip during the Christmas holiday period is planned in addition to games with small colleges, listed before the opening of the Big-Ten campaign.

If Devine shows anything like the proficiency on the court that he did on the gridiron, close followers predict that Iowa will be in the fight all year for titular honors.

MATHEWSON NOT WORSE

Saranac Lake, N. Y., Dec. 6.—Reports that Christy Mathewson's health is growing rapidly worse were denied by his physician, Dr. Edward N. Packard, here today. Several days ago "Big Six" suffered a rise in temperature and following the usual course he was ordered to bed. Dr. Packard asserted, however, the fever is abating and there is nothing alarming.

WALDRON WINS GAME ON A FREAK PLAY

They Say Ball Bounded Into Basket For Two Points After Striking Player on Head

MILROY DENIES A MIX-UP

Waldron high school attributes the result of the basketball game played between their school, and the Milroy school Friday night at Waldron, as being due to a freak play, when they won out 21 to 20. They claim that the winning goal was made following a toss up between McCorkle of Milroy and Kolkmier of Waldron, when they both jumped at it, knocking it to the ceiling, and when the ball came down it struck Kolkmier on the head and rebounded into the basket.

Coach McCullough of Milroy stated that there were no hard feelings between the two schools, and that the referee whistled for a dead ball, on account of one of the spectators interfering. Just as he tossed it between two players, the time keepers blew for the final time.

It was reported Saturday, and generally believed by several Milroy rooters that the referee had called a foul instead of a dead ball for a toss between the two players.

PREPARING FOR CARTHAGE

High School Band and Rooters Will Make Trip on Friday Night

The followers of the high school basketball team, headed by the high school band, will invade Carthage Friday night, when the two teams will clash for the first tilt of this season. Each team is far better this year than last, and indications point to a hard fought game. Carthage has been stepping out fast this year and by comparing the two scores, the teams look evenly matched. Spieckland was defeated at Carthage, 30 to 19 and Rushville defeated the same team 29 to 16.

The auditorium at Carthage is being enlarged with a balcony, and 200 seats will be held for the Rushville visitors.

KNOCKS OUT K. O. BROWN

Memphis, Dec. 6.—Carl Tremain, Cleveland bantam, knocked out K. O. Brown of New Orleans in the fourth round of a scheduled 8 round bout here last night.

MIKE GIBBONS WINS

St. Louis, Dec. 6.—Mike Gibbons, St. Paul phantom, beat Angie Ralner, New York, in a slow and uninteresting 12 round bout here last night.

CAVEMAN IS TAMED

New Orleans, La., Dec. 6.—Young Eddie Fitzsimmons of Oklahoma found Frankie Carbone, the Jersey cave man, tamed last night and was given the referee's decision at the close of their 15 round bout.

RE-ELECTED PRESIDENT

Chicago, Dec. 6.—Julian T. Fitzgerald, Chicago, last night was re-elected president of the Western Skating association.

CENTRE COMING NORTH

Chicago, Dec. 6.—Negotiations have been opened for a football game between Centre College and Northwest University in 1922, it was announced today. Notre Dame also may be listed.

AGREE DISCIPLINE IS A GOOD THING

Baseball Magnates in Buffalo For Annual Meeting Approve Action of Commissioner Landis

DRAFT SYSTEM IN FAVOR

Major League Moguls Are Admittedly Keen For it—Nine Cases in Dispute Disposed of

By HENRY L. FARRELL
(U. P. Staff Correspondent)

Buffalo, Dec. 6.—Baseball magnates here for the annual meeting of the National Association of Professional Baseball Leagues today generally expressed the opinion that the best interests of the game demanded the disciplining of the players, such as handed out to Babe Ruth, Meneal and Piercy by Commissioner Landis. They believed the severity of the penalty imposed would have the effect of putting a stop to barnstorming by contestants in future world series games.

The fine and suspension of the players has given an added interest to the appearance of Commissioner Landis here tomorrow evening when he will be the honor guest and chief speaker at a dinner given by the local committee to visiting baseball men.

Deals for players, President Michael H. Sexton's campaign for greater economy in the management of smaller league clubs and the possibility of reinstating the draft system were questions up for consideration. In the International and in the American Association nearly every club manager has a different idea as to how the draft problem should be dealt with.

The major league moguls admittedly are keen for the draft and that is one of the chief reasons they are so well represented at the present conclave.

Only nine cases of the 100 odd had been disposed of by the national board of arbitration when the conference convened today.

The claim of Manager Stis of St. Louis against Springfield, Mo., team was disallowed.

DISPUTES TAKEN UP BY RAIL LABOR BOARD

Modification of Agreement With Maintenance of Way Men is Expected to Result

ABOUT 95 ROADS INVOLVED

(By United Press)

Chicago, Dec. 6.—Consideration of disputes over working rules between railway maintenance employees and the railroad companies was started today by the U. S. railroad labor board.

Modification of the national agreement made between the U. S. railroad administration and the maintenance of way men will probably result. Already this government has been suspended on nearly forty roads and replaced by an understanding entered into between each line and its employees. These understandings will not be affected by the board's ruling.

About 95 roads are involved in the dispute.

Agreement has been reached between the individual roads and the unions on all except six of the rules. These rules relate to overtime and pay of men while traveling to and from work. Only those rules still in dispute were taken up by the board.

TENNIS RANKS AS BIG MONEY SPORT

Not Only Goes Big as Outdoor Sport, But Also Figures With Championship Money

ONE GATE BROUGHT \$120,000

Davis Cup Match is Said to Have Netted Over \$70,000 And Other Affairs Rank High

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, Dec. 6.—Tennis has not only developed into one of the most popular American sports but it now takes rank with the foremost of "big money" attractions.

The national men's championships at the Germantown Cricket Club in Philadelphia last September is said to have drawn a gate of \$120,000. The challenge round matches of the Davis Cup play between America and Japan brought in over \$70,000 at Forest Hills and the national woman's championships at the same club would have exceeded that mark if Mlle. Suzanne Lenglen, the French star, had been able to play through. In addition the exhibition tour of American stars staged for the benefit of Devastated France brought in \$10,000, although it was played off season.

It is only to be expected that professional sportsmen would look with eagerness at tennis as a money making proposition and it is understood that William T. Tilden, national and international champion, was offered \$25,000 recently to turn professional next summer.

Tennis perhaps, comes closer to a real amateur sport than any other American pastime. The number of professional instructors, compared to golf, is almost negligible and the star players get less out of their work than the great players of any other game.

Tilden wrote tennis articles for a syndicate last summer, as did Vincent Richards. Tilden is reported to have been paid about \$1,000 a month for his stories. But the champion adhered rigidly to the rule of the tennis association that players must write every word that appears in print under their names.

Many of the players are engaged in the insurance business and their connection with the game brings them in contact with most of the ultra-exclusive clubs of the country, where "prospects" are very lucrative. It is said that one of the Pacific Coast stars on his tour of the east last summer sold policies the commissions on which netted him \$20,000.

The association has done much to preserve a strict amateur standing among the players without doing them an injustice for the time and attention they devoted to the sport. The Maurice McLoughlin case of some years back recalls the stand the association took against allowing a player to capitalize his name by engaging in the sporting good business. Last winter the governing body of the game also passed a rule prohibiting the players from allowing the use of their name on any racquets or paraphenalia of the game.

THE PAST AND THE PRESENT

In the Past our ancestors were content to use the candle with its dim, flickering rays.

In the Present (Today) we are privileged to use the steady, brilliant Electric light—the product of Science.

In the Past thousands of people went through life suffering from ailments that seemed to be incurable.

In the Present (Today) thousands of people are finding out that these same ailments yield readily to CHIROPRACTIC—the modern scientific method of removing the cause of Dis-ease.

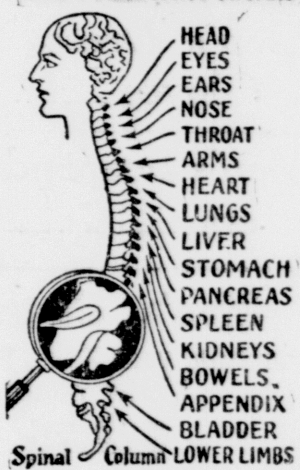

In the Past, the idea, a mistaken one, was to try and cure the effect without making any effort to find the CAUSE.

In the Present (Today) the SCIENCE OF CHIROPRACTIC strikes right at the root of the matter, adjusts the cause and Nature, the Great Healer, is given the opportunity to make the cure. Nature never fails in this task.

If anything goes wrong with the Electric Light system of your town the TROUBLE MAN employed by the company is immediately sent for. He locates the cause of the trouble and adjusts it. The Chiropractor is your Health TROUBLE MAN. If you are ailing send for him. He, too, will locate the cause of your trouble and at once adjust it.

Live in the Present, don't live in the Past.

SOCIETY

Edited By Miss Edna Krammes
Phone 1111

Miss Helen Monjar will be hostess to the members of the Five Hundred Club tomorrow evening at her home in West Second street.

The Delphian Society will meet Friday afternoon in the assembly room of the court house. All the members are urged to be present.

The Pythian Sisters will meet Wednesday evening in the K. of P. hall. As officers will be nominated and elected at this time, every member is urged to be present.

The Band of Workers of the First Presbyterian church will meet tomorrow afternoon at 1.30 o'clock in the parlors of the church. All the members are urged to be present.

Friends and relatives delightfully surprised Mr. and Mrs. Thomas Smith at their home in North Sexton street last evening, the occasion being in honor of Mr. Smith's birthday. A delicious and bountiful pitch-in supper was served.

The Psi Iota Xi Sorority will meet this evening at the home of Miss Phyllis Dean in North Main street. Miss Allene Budd will be the assisting hostess. Every member is urged to be present and are urged to bring their report of the Christmas seal sale.

The American Literary Club will be entertained Wednesday afternoon by Mrs. Martha Grindle at her home in North Main street. The members with their husbands will be entertained at dinner in the evening and the ladies of the first division will be hostesses.

Mr. and Mrs. Robert Jordan entertained with a dinner party Sunday at their home north of Arlington.

ton. The guests were Mr. and Mrs. Floyd Woods, Mr. and Mrs. John Nelson, Mr. and Mrs. Earl Downey and son Buford Clair and Mr. and Mrs. Elmer Hutchinson.

The Progressive Boosters class of the First Baptist church will be entertained this evening at the home of Mr. and Mrs. Roy Saunders in West Fifth street. The assisting hostesses will be Mrs. Bert McIlwaine and Mrs. G. O. Palmer. All members are urged to be present as officers will be elected at this time.

The regular meeting of the Woman's Council was held last evening in the Callaghan store in East Second street. Plans were discussed for extending the serving of the milk to the Graham Annex school building, but this will not be done before the holidays. The reports for the month were read and approved and other regular business was disposed of.

Announcements have been received here of the marriage of Mrs. Fannie Harrison, daughter of Mr. and Mrs. W. A. Caldwell, of this city to Wyatt DeWitt of Indianapolis, which occurred at the Presbyterian church in Indianapolis last Thursday evening. The Rev. Gene Miller performed the ceremony. The bride who has been employed in Indianapolis, is well known here, having lived here all her life. Mr. and Mrs. DeWitt will reside in Indianapolis.

Mrs. George Hogsett entertained the members of the Tri Kappa sorority last evening at her home in East Sixth street. During the business meeting the sorority decided to buy a health bond and plans were made for a Christmas party to be given at the home of Mrs. Walter E. Smith, December 19. Mrs. Earle Hamilton of near Greensburg, was the only out

of town guest present for the meeting. Dainty refreshments were served during the social hour at the close of the business session.

Mrs. H. S. Havens was hostess for the members of the Coterie yesterday afternoon at her home in North Harrison street. The guests enjoyed the afternoon over various kinds of needlework. Dainty refreshments were served by the hostess.

The Imperial orchestra which has been on the Keith vaudeville circuit for the past season, will provide the music at the Social club dinner dance Wednesday evening at the club rooms. Members of the orchestra are now attending college at Franklin college. Dinner will be served at 6.30 o'clock.

The neighbors and friends of Mr. and Mrs. John Warfield and daughter gave a beautiful pitch-in supper last Thursday evening for their daughter Allene, it being in honor of her ninth birthday. The guests were Mr. and Mrs. Thomas Creek, Mr. and Mrs. Denzil Creek, Mr. and Mrs. Riley Stevens, Mr. and Mrs. Clarence Floyd, Mr. and Mrs. Jess Retherford, Mr. and Mrs. James Dill, Mr. and Mrs. Albert Moser, Mr. and Mrs. Sam Beaver, Mr. and Mrs. R. J. Hall and daughter, Mr. and Mrs. Earnest Berninger and son, Mr. and Mrs. Charles Boys and daughter, Mr. and Mrs. John Ziegler and daughter, Mr. and Mrs. James Warfield and daughter, Mr. and Mrs. James Aldridge and daughter, Mr. and Mrs. Ross Schrader and daughter, Mr. and Mrs. Thomas Miller, Mr. and Mrs. Hal Green and sons, Mr. and Mrs. Jake Parrish and the Misses Mary Anderson, Edith Hollensbee, Ada Williams, and the Misses O'Neal, Mrs. Ruth Scott of Indianapolis, Herbert Stevens, Willie Stevens, Richard Amshine, William Warfield. Following the supper the evening was spent in dancing and games. The music was furnished by Mr. Miller, Mr. Creek, and Mr. Moser.

ATTENTION K. OF C.

The Knights of Columbus will meet at their club rooms at 7.30 p. m. Wednesday to go to the home of Mrs. Bernard Madden.

The Rush County Products Show

The following three days should be of particular interest to the residents of our suburban community, for they will have their proportionate chance for the splendid premiums offered and for the unusual premiums offered by this store — big and substantial savings on new and up-to-the-minute garments. These concessions are made with the express purpose of helping to attract for these few days an enormous crowd of our Rush county friends to the Products Show, that will be somewhat commensurate with the efforts that have made it possible.

These savings are sure - take advantage of them

The New Chappie Coats Greatly Reduced

Only last week a big shipment of these excellent coats for Misses arrived. You will concede that they are brimfull of style. No two are alike, they show a wide diversity of cloths and all have big shawl collars of fur. They were bought to sell from \$29.75 to \$39.75. During the Products Show, choose at

\$24.50

The Gift Store

A tour of inspection throughout this store will be for you now an immense store of information and will bring to your mind almost countless suggestions, that might otherwise tax you many wearisome hours. We have attempted to provide a vast assortment of giveable gifts, the kind that will be greatly appreciated. We will gladly lay aside anything you may choose. Do your share of keeping alive the Christmas Spirit.

An express shipment has just brought some of the prettiest coats we have had this season. They are of normandie, rivoli, bolivia, velour and plush, most of them fur trimmed. Some have the coveted loose panel back with long silk fringe, others have the attractive blouse back. The prices named will move them quickly.

\$35.00, \$39.50 \$45.00, \$50.00

Wonderful Values in Dresses

Our immense showing of dresses has been divided into several big price groups—at each price you will find exceptional values. Among them are dresses of satin, taffeta, crepe, canton, tricotine, poiret twill, whipcord and serge. Select yours tomorrow. We mention a few of the price groups

NEW FEATURES ARE TO BE INTRODUCED

Much Interest is Manifested in I. O. O. F. Initiatory Degree to be Given Wednesday Evening

ZOUAVE TEAM IN PROSPECT

Much interest in going manifested in the initiatory degree to be given by Franklin Lodge No. 35 I. O. O. F. Wednesday evening, owing to the new dramatic features introduced under the direction of John Teckenbrock, a noted instructor of Indianapolis. Scenic effects have been prepared by a theatrical artist and the electrical and properties by local talent. This is the first attempt in this section to confer this particular degree in spectacular form and visitors are expected from all neighboring lodges. Music will be furnished by the orchestra. New floor work is also included in the improvement in the degree.

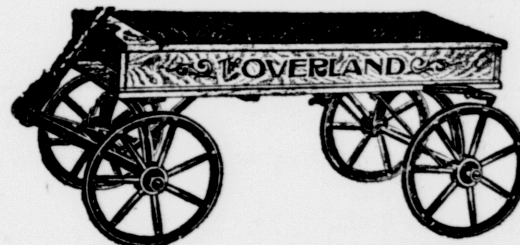

The prospects for the organization of a zouave drill team were discussed at the rehearsal last evening and it is probable that it will be done before Mr. Teckenbrock completes his work here. If the team is organized it will likely go to Detroit next September to appear in the parade which will be the feature of the Sovereign Grand Lodge meeting there. Over \$50,000.00 is offered as prizes by the committee in charge of the meeting and it is hoped to bring part of it to Indiana.

Mr. Teckenbrock organized the first staff the local lodge ever had in 1904 when the lodge had only eighty members; it now has nearly five hundred members and the growth and prosperity of the order here is attributed by the members to efforts of the degree staff working under his instruction.

Photographs are gifts you can easily afford to give, sit now. Wallace Photographer. 22816

Don't Burn Good Fuel in a Poor Stove.

TAKE PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEPSINCO.

Ask your druggist—he sells and recommends Pepsinco.

TRUCKS ARRIVE FOR ROAD WORK

Thirty Liberty Trucks And Ninety
Tons of Equipment Are Given Over
by The Government

FOR USE ON STATE HIGHWAYS

Allotment Also Will Include 70
Trailers For Use by State High-
way Department

Indianapolis, Ind., Dec. 6—Guarded by a convoy of ten Indiana National Guardsmen, George Bartley, chief of the motor transport of the state highway department, has just brought to this city a rain of thirty class B. Liberty trucks, from Jeffersonville. The train also carried ninety tons of supplies chiefly expensive motor parts, and the total value of the trucks and equipment about \$125,000, according to Lawrence Lyons, department director. The consignment of trucks and equipment is a part of an allotment to Indiana from the Federal government, and will be used in state road construction and maintenance.

There remains to be conveyed, seventy trailers with cargo bodies, which also have been released to the highway department, and which Mr. Bartley will bring here within the next few weeks. A convoy of soldiers is necessary, highway officials explained, because of the value of the equipment which must be carefully guarded enroute and which guard continued for one night after arrival of the train here until such time as the trucks could be taken to the Fair Grounds for temporary storage.

A feature of the motor train was that the Standard Oil Company had tanks of gasoline and oil scattered all along the route to supply any trucks in the event they were cut off from their supply line. Two expert mechanics followed in the rear of the line to give aid to any stragglers.

The Class B. Liberty trucks are new, none having been run as much as one hundred miles at the time they were turned over to the highway commission. In fact all the equipment the department is now receiving from the Government is new, with the result officials say, that much more work will be possible at less expense than was possible from a great deal of the early equipment received from the Federal aid source.

According to Mr. Lyons the Indiana highway department at this time has approximately 600 trucks which will be used in road work. The last consignment from Jeffersonville will be equipped with hydraulic power hoists and dump bodies before they are introduced into service.

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid-ester of Salicylicacid.

TRESPASS LAWS NOT UP TO GAME WARDENS

Farms Have Wrong Impression
About Wardens Enforcing Laws
on Violators For Trespassing

IS ANOTHER STATUTE

Indianapolis, Ind., Dec. 6.—According to numerous inquiries reaching the office of the state board for the conservation of wild game and fish, many farmers throughout Indiana are under the impression that it is the duty of deputy game commissioners to prosecute hunters who trespass upon lands of farmers.

In many part of the state in recent weeks farmers have banded together and have caused to be inserted in newspapers and placed on sign boards warnings against hunting upon their premises. The idea apparently has become quite general that when such warnings are given it is the duty of deputy game commissioners to prosecute persons charged with trespass. The deputy commissioners, however, have nothing to do with the prosecution of the game and fish laws, states the conservation board.

November is the record month for the issuance of hunting licenses in Indiana. From several counties in the northern part of the state have come reports that all previous records for the issuing of hunting licenses will be broken this season. In addition to the permits issued to hunters who are residents of the state many non-resident licenses have been issued at a cost of \$15.50 each. It costs a resident of Indiana but \$1 to procure a license in this state.

Reports reaching the office of the state board the last few days indicate that squirrels, rabbits and ducks and quail have been quite plentiful.

WEALTHY WOMAN UPHOLDS DOCTOR

Mrs. John Mitchell of Chicago Heads Fight to Prevent Hospitals From Excluding Dr. Lorenz

CURED HER WHEN A CHILD

Suffering From Hip Trouble, She Was Relieved by Physician Who is Subject of Attack

J. L. O'SULLIVAN
(U. P. Staff Correspondent)

Chicago, Dec. 6.—Lolita Miller Mitchell, daughter of the millionaire packer and Chicago's wealthiest woman, today led the fight against doctors who have closed doors of Chicago hospitals to Dr. Adolph Lorenz, world famous orthopedic surgeon.

Mrs. Mitchell, who was cured of hip trouble while a child by Dr. Lorenz said in an interview with the United Press, she would do whatever she could to "repay the debt I owe Dr. Lorenz for my health and happiness."

Mrs. Mitchell was busy arranging her new home on the "gold coast." She had just returned from her honeymoon, having recently married John J. Mitchell, banker's son, uniting the two largest fortunes in Chicago.

"If Dr. Lorenz's visit here would result in a cure for one child now facing the life of a cripple, it would be worth while," Mrs. Mitchell declared. "One cure would not only give happiness to one poor child, but would give encouragement to hundreds of others."

"Dr. Lorenz is undoubtedly a much

We Again Address You

on the subject of Straight Savings, at your convenience, without frills or "red-tape." We call your attention to the following important points which are only some of the many advantages to you.

INTEREST. Your account will be credited on January 1st and July 1st, with interest at the rate of 6 per cent per annum, not 3 per cent or less. Remember this.

PAYMENTS. Failure to make any payment does not forfeit interest due you. It would not be fair to you if it did. Consider this while planning your Savings.

WITHDRAWALS. These can be made at any time without previous notice. All you have to do is to bring in your Pass-book.

SECURITY. Every dollar of your deposit is invested in Rush County or Rushville real estate mortgages. We never loan over 75 per cent of the actual cash value of the property, generally much less. Appraisements are made by a committee of the shareholders and not by the officers. Don't this look safe?

EXAMINATIONS. We are under rigid annual examinations by the Auditor of State and are examined just the same as banks and trust companies.

BONDS. Our active officer is under a heavy Surtty Company Bond for the faithful performance of his trust.

INSURANCE. We carry insurance against Day-light Hold-up" and Night Burglary just the same as Banks and Trust Companies.

OUR AGE. We have been in business over a third of a century and are the oldest and original home for Savings in Rush County.

DEPOSITS. Remember that no account is too small to receive our best attention and neither is any deposit too large for us to properly handle.

REMEMBER. That all amounts that you have to your credit on December 31st begin to draw 6 per cent per annum, not 3 per cent on January 1st, 1922.

HOURS. We are open from 9:00 a. m. to 4:00 p. m. each day and on Saturday nights we are open for your convenience from 6:30 to 7:30 p. m.

INFORMATION. That is not set out above will be cheerfully given by the officer in charge.

You will surely want one in your home Xmas. Come in right now and buy if you want one. We will deliver Xmas or any time to suit you.

Big Cut-Price Sale on our Entire Stock

WE MUST SELL—therefore we have hammered down the prices to the lowest so people can buy.

(WE ARE PREPARED TO GIVE EASY PAYMENTS)

Phonograph and Piano Manufacturers have reduced prices. Prices are now down to rock-bottom—even lower than before the War. We can prove that we know what we are talking about—why not? We deal exclusively in Musical Merchandise. We are in close touch with market conditions at all times. Some dealers are still holding out for high prices as though the war wasn't over — these dealers buy from jobbers. We have been advocating lower prices for the past two years. Whenever the factory prices reduced we in turn reduced our prices, giving our trade here at home the benefit. Buy musical goods at this strictly up-to-date music store—at strictly up-to-date prices — the lowest prices always.

Period Phonographs — Pianos — Player-Pianos — Columbia Grafonolas — Everything in Music — Violins — Cornets — Clarinets — Small Instruments of every description are sold by this store. Beautiful and serviceable Xmas presents in Musical Merchandise at the Lowest Prices.

better orthopedic surgeon than any we have in this country. He proved that when he cured me after all other leaders here failed."

Mrs. Mitchell answered the claim of Chicago surgeons that they looked with disfavor on the "newspaper notoriety" which Dr. Lorenz has received since coming to this country.

"Although Dr. Lorenz has received a great deal of attention and publicity, I am sure it was not because he desired it. He always opposed publicity, but newspapers made much of him because he was a 'good story.' He wanted to be agreeable and help the newspaper men."

Mrs. Mitchell whose hip trouble had been pronounced incurable by many surgeons in this country, as a result of Dr. Lorenz's treatment, is now healthful and happy. She is noted among the Chicago social set for her athletic abilities.

"Dr. Lorenz saved me from the life of an invalid," she said. "I am going to do whatever I can to defend him from this attack."

Applications to local hospitals to permit Dr. Lorenz, who is now in New York to hold clinics in Chicago hospitals were turned down. It was here that Dr. Lorenz gained his greatest fame and fee when he was claimed to have cured Lolita Armour of a hip disease from which she had been suffering for years, for \$100,000.

A statement issued by the Orthopedic surgeons of Chicago gave as the following, reasons for their opposing Dr. Lorenz a visit

That although he has claimed publicity he came to America to "pay back" this country for help given starving Austrian children, he has admitted in letters to friends the real reason is to retrieve his personal fortunes.

Because Chicago doctors "look with disfavor on newspaper notoriety of the loose sensational type."

Because of danger of arousing hysteria among many cripples leading to disappointment if they are not cured.

That after Dr. Lorenz left following his first visit, those "who came in contact with many cases upon which he had operated saw results which they were glad they were not responsible for."

The results obtained by Americans "are just as good."

That if the Dr. Lorenz visit can be "put over," it will not be long before similar visits can be expected from representatives of other medical lines.

Doctors pointed out that no European nation recognizes the right of an American physician to practice there. They declared when Dr. John B. Murphy performed his famous "button operation" in Rome, he was forced to operate on a dog.

MARINE GUARD ARRESTED

Beaumont, Tex., Dec. 6.—T. A. Willis, marine guard on a Kansas City Southern train, was arrested by a deputy sheriff at the station here at request of Shreveport civil authorities following slaying of Wiley Clark at Shreveport. Willis was turned over to the squad of marines on duty here.

RICHLAND BOY IS WITH DELEGATION

Cecil Pike, Rush County Boys' Club Member, Visits American Farm Bureau Headquarters

IS REWARD FOR GOOD WORK

Secretary J. W. Coverdale Speaks to Delegation on Occasion of Their Club Rally

Cecil Pike, club member from Richland township, was one of five hundred and fifty farm boys and girls from 30 states who visited the American Farm Bureau Federation headquarters last Wednesday afternoon at Chicago. These children, ranging in ages from 10 to 19 were given this week's trip to Chicago as a reward for raising prize live stock or grain or excelling in cooking or sewing or other phases of boys' and girls' club work. Their trips were financed by their local banks, county farm bureaus, state fair associations interested individuals, and various business organizations.

Secretary J. W. Coverdale, a member of the board of directors of the National Committee on Boys and Girls Club Work, spoke to the delegation at their club rally on Monday night. "I know that I am talking to an audience potentially great," he said. "I have seen the club boys and girls grow up into successful farmers. Some of the best-known county agents and home demonstration agents have come from your ranks. May club women have gone to agricultural colleges. There are 1,800 club boys and girls now attending college. You will be

expected to follow in their footsteps. Perhaps the future head of the Department of Agriculture is present tonight and the girl who will sometime be queen of the White House. (Continued on Next Page)

Serum Merely Prevents Losses Does Not Eliminate Cholera

Some persons think that the use of anti-hog-cholera serum has become so general that we are far on our way toward the elimination of the disease, but, according to the United States Department of Agriculture, a clean-up of cholera can not be expected through the use of this method. Besides, only a small percentage of the hogs in the country are treated each year and there is also almost a complete turnover of the swine population each year. Every 12 months we start with a new lot of pigs and the fight against disease must start at the beginning again.

About 500,000,000 cubic centimeters of serum are used every year, which means that, counting 50 cubic centimeters for each hog, only about 10,000,000 hogs are treated. In recent years there have been around 70,000,000 hogs in the country on January 1, according to Federal crop estimators, which means many more hogs in the spring and summer. If all these hogs were treated cholera would not be eliminated. It would simply be impotent to kill many hogs for one season and would begin to kill again the next season if serum were not used. Serum treatment, like insurance, can not be allowed to lapse.

INSTITUTES ARE STARTING OUT BIG

Register Unusual Interest and Attendance According to First Reports Reaching Purdue

FORMALLY OPENED NOV. 15

Institute Season to Continue Through February, With Total of 464 Scheduled in State

Lafayette, Ind., Dec. 6—Farmers' institutes, the first form of agricultural extension work ever conducted in the state, have started big in Indiana this year, registering unusual interest and attendance, according to first reports reaching the Agricultural Extension Department of Purdue University. The institute season opened formally Nov. 15 with several meetings in the south part of the state.

A total of 464 institutes were scheduled, 27 coming in November; 108 in December; 194 in January, and 135 in February. They will be

Clover Helps Increase Corn and Wheat Yields By Supplying The Plant Food

By S. D. CONNER
Purdue Experiment Station
The nitrogen question is the most important soil fertility problem before the corn-belt farmer.

Investigations by Purdue on virgin and cropped soils at 31 localities in Indiana show that there has been a loss of 27 percent nitrogen

caused by cropping. The loss of acid soluble phosphorous and potash was only about 10 percent.

On Purdue Experiment Station plots, started in 1889 and cropped in wheat continuously without fertilizer for 32 years, the loss of nitrogen has averaged 42 pounds per acre per year, a total of approxi-

mately 25 percent of the original nitrogen. The loss of nitrogen with continuous wheat has been about one-third more than that removed in the crop.

Nitrogen losses are greater in soil cropped to corn than they are in soil in wheat. This is due to the more active nitrification of cultivated soil in corn as well as to the great amount of nitrogen removed in the crop. In monthly tests at Purdue in 1920, there was four times as much nitrates in the soil in corn as there was in soil in wheat or oats.

Clover Increases Corn and Wheat
Yields By Supplying Plant Food

Continued from Page One

While the soils of the midwest
may be ideally situated for great
efficiency in nitrogen supply, there is
no question but that greater efforts

must be put forth to replenish and
conserve nitrogen. Only about one-
tenth of the cultivated land in the
midwest is in legumes. More legu-
mes must be grown before the de-
cline in nitrogen will stop.

On three Indiana experiment fields

where corn, wheat, clover has been
compared to corn, wheat, timothy,
corn has averaged 6.5 bushels more
and wheat 3.6 bushels more with
clover than with timothy.

Lime, phosphate and potash are
particularly valuable in aiding to

get good legume crops. When used
with legumes they act to a certain
extent as indirect nitrogenous ferti-
lizer. Until more legumes are grown
some nitrogen in the fertilizer will
prove profitable on the thinner soils.

RICHLAND BOY
IS WITH DELEGATION

MEANS \$40,000,000 A YEAR TO PRODUCER

Comment of Clifford Thorne on Grain Rate Decision of Interstate Commerce Commission

FARM BUREAU PLAYS BIG PART

"This little document means a saving of \$40,000,000 per year to the producer", said Clifford Thorne, Director of the Transportation Department of the American Farm Bureau Federation, as he presented the Nov. 21 decision of the Interstate Commerce Commission in the Grain Rate Case. "This is the largest reduction ever ordered by the Interstate Commerce Commission in its entire history", declared the American Farm Bureau Federation's Legal Counsel.

The Decision affects rates on grain, grain products and hay in carloads between points in the West-

tern and Mountain-Pacific Groups. The American Farm Bureau Federation intervened in the grain case, and presented the bulk of the evidence.

Where the increase on Aug. 26, 1920, amounted to 25 percent, the reduction shall be 12½ percent. Where the increase on Aug. 26, 1920, amounted to 40, 35 or 33½ percent, the reduction in rates shall amount to 20, 17½ and 16½ percent, respectively. In other words, the Commission reduced the Aug. 26 1920, increase by 50 percent.

INSTITUTES ARE STARTING OUT BIG

HAS ACTUAL CASH VALUE CO-OP FIRM BEGINS JAN. 1

Extension Department of Purdue Benefits Farmer at Least

Lafayette, Ind., Dec. 6.—Agricultural extension work as carried on by Purdue University has an actual cash value to the steadily growing number of farmers who take advantage of the services offered. This was shown by hundreds of men in all parts of the state, one of the striking examples of which was Sam VanderWal, a Lake County truck grower.

Mr. VanderWal followed the directions of Purdue botanists in planting a cabbage variety that would resist yellows, one of the most serious cabbage diseases. He was paid a premium of \$5 extra per ton on his cabbage, which yielded 35 tons to the acre.

L. S. Robertson, M. H. Overton, C. A. Norman, F. C. King and Ben H. Petty.

First Live Stock Commission Business Will Open For Business

The first of the farmer-owned and controlled co-operative commission firms to be established according to the adopted plan of the Farmers' Live Stock Marketing Committee of 15 will open for business at National Stock Yards, Ill., on January 1, 1922. The new firm will be called the Producers' Live Stock Commission Association and will have its headquarters at 34 and 35 Exchange Building, National Stock Yards, Ill. The members of the board of directors are: C. B. Denman, Farmington, Mo., Chairman; Joseph Fulkerson, Jerseyville, Ill.; A. E. Crum, Virginia, Ill.; W. W. Fuqua, Monro City, Mo.; C. B. Huntley, Chariton, Ia.; L. O. Grieser, Ursa, Ill., secretary-treasurer.

Seranton, Pa., ranks first among coal mining cities of the world.

HESSIAN FLY ON INCREASE

Rate of Growth Much Larger Than Ever Before Believed

If it were not for its parasitic enemies and unfavorable weather, the Hessian fly would increase in such vast numbers that wheat growing in this country would be practically impossible inside of two years. The United States Department of Agriculture, as a result of recent studies, now published in Department Bulletin 1008, Rate of Multiplication of the Hessian Fly, by W. R. McConnell found that the increase in breeding of the insect was much higher than had been before realized. The data collected afford an explanation for the very sudden development of a Hessian fly outbreak and furnish a basis for predicting more accurately the approach of a dangerous infection.

The December Records

The December Records are very beautiful — and unusually good. Everything from Banjo to Classic. There's a good Santa Claus Record for the kiddies.

Christmas Records

We suggest "Silent Night" by Schumann Heink, "Ave Marie" and "Elegie" by Caruso, "Adestes Fidelis," by John McCormack—all wonderful records by wonderful artists.

Get your
Christmas Victrola
early while our stock is complete

Each year at Christmas time there is a demand for Victrolas and Victor Records. This is especially true of the more popular styles of instruments.

Our advice this year is to buy NOW, paying a small amount to hold the machine and the rest in weekly payments.

We will deliver the machine for you on Christmas Eve. At this time our stock is complete. We are showing Victrolas of almost every style and finish. But these will not last long and we urge most emphatically that you buy NOW.

The world's greatest musicians make records exclusively for the Victor. This perhaps is one of the highest tributes paid the Victrola, for if this instrument did not reproduce the art of the world's most noted artists exactly as they want it to be reproduced, the Victor could not boast of their host of artists. For your friends who own a talking machine, we suggest that you give them a selected list of records as a Christmas gift. Come in and we will gladly play your favorite music. Music is always appreciated and what better music can you find than that of the world's greatest artists as offered on Victor Records.

Concerning the Genuine Victrola

The Victrola is the pioneer of all Talking Machines. It is made of the best materials obtainable and MADE COMPLETE IN ONE FACTORY. The quality of Victor products is of the best. There is nothing "cheap" or "just as good" about a Victrola. It is made ENTIRELY by SKILLED WORKMEN and will stand the strain of TIME. For example: The CARVING of the genuine Victrola is ALL DONE BY HAND—by master wood-workers, and carved out of solid wood. It is not made of glue and sawdust and tacked on. We invite you to come in and inspect the genuine Victrola and compare it with other machines as to tone, workmanship, durability, beauty of design, and, in fact, in any way you care. And back of it all stands not only our own guarantee but also the guarantee of the Victor Talking Machine Company—the largest and oldest manufacturers of talking machines in the world. Be content with only the GENUINE and look for the famous Victor trade mark.

GEO. C. WYATT & CO.

FARMERS MAY NOT CALL STRIKES

This Was Emphatic Expression of John G. Brown President of Farmers Association

TO SETTLE DOWN TO NORMAL

States That Buying Power of the Farmer is About Two Thirds Normal—Manufactured Goods High

Indianapolis, Ind., Dec. 6—Strikes may not be called by Indiana farmers on account of low grain prices. They do not intend to let their corn land lie fallow next year.

This was the emphatic expression of John G. Brown, president of the Indiana Federation of Farmer's associations, today.

"The inertia of war production influenced farmers to raise too much last year. Now they are preparing to settle down to normal rotation", he said.

"Much of the land has lost fertility on account of overproduction. To conserve and maintain fertility, legumes will be sown in many places. The legumes put nitrogen, one of the principle constituents of grain, from the air back into the soil by means of bacteria colonies on their roots. Some of these are clover, sow beans and cow peas."

Brown also stated that the buying power of the farmer is about two-thirds normal. The cost of manufactured products is high as compared with the prices of farm products.

"From 1909 to 1914 a set of harness could be bought for 44 bushels of corn. At prices which now prevail it takes about two and one-half times as many or 115 bushels. During the five years preceding the war a plow could be bought for 16 bushels of corn; now it requires forty-one for its purchase."

"When farmer purchasing power is low, it causes unemployment in the city. This is very costly to both consumer and producer and puts the farmer back on a self-sufficing system of agriculture."

Manure Needs Phosphate To Make It A Complete Fertilizer, Purdue Finds

By S. D. CONNER
Agricultural Experiment Station,
Purdue University

The reinforcement of manure with acid phosphate for soil improvement may be compared to the use of tankage as a supplement to corn in fattening hogs. Corn is the most common and best feed a farmer can use. Likewise manure is the commonest and best material a farmer can use to feed crops. Up-to-date feeders recognize now the value of a protein supplement to corn. It is just as important to add phosphate to balance the farm manure as it is to add tankage to balance corn. There is nothing strange about this if we stop to think.

When crops are fed to animals, most of the potash is returned in the manure in different parts of Indiana great deal of the phosphorus. The animals are sold and the phosphate goes off the farm. By returning the

manure to the land and growing a legume to help furnish nitrogen, there is no serious deficiency except phosphate. This element must be added either to the manure or applied separately to the land.

The Purdue Experiment Station has been conducting experiments on the value of phosphate in addition to manure in different parts of Indiana for the last ten years. Approximately six tons of manure were used each three years. The phosphate used amounted to about 300 pounds of acid phosphate per acre, or 600 pounds raw rock phosphate. Where acid phosphate was used in addition to manure, the average increase per acre on 3 fields has been 8.3 bushels corn, 3.2 bushels wheat, and 665 pounds of clover. The increase due to raw rock phosphate has been 4.4 bushels corn, .6 bushels wheat, and 300 pounds clover. Acid phosphate has shown a profit on all crops when

used in addition to manure. Raw rock phosphate has not been profitable at present farm prices except on the Bedford field on unlimed land. The Purdue plan of soil building includes good drainage; a rotation of crops, including a legume; the feeding of roughage and corn to livestock, so far as this can be done profitably, and the conservation and use of all farm manure and crop residues; the use of acid phosphate in addition to manure; the use of lime on acid soils; and in special cases, where the land needs it, the use of nitrogen and potash in addition to phosphate. By this plan the largest and most profitable crops can be grown.

FORM FINANCE COMPANIES

War Finance Corporation Will Help Live Stock Industry

"A number of important finance companies are being organized throughout the country to assist in the financing of the live stock industry, with the co-operation of the War Finance Corporation", states Eugene Meyer, Jr., Managing Director of the War Finance Corporation, to the American Farm Bureau Federation. "A Utah company, with a subscribed capital of \$500,000 will make live stock loans in Utah and Idaho. Wyoming has formed a loan company with \$300,000 paid up capital, and the War Finance Corporation's loan of \$215,000 announced last week was made through it. Western Nebraska bankers have organized a \$200,000 live stock loan company."

118 HOGS ARE ENTERED

Judging Begins in Ladies Depart-
ment This Afternoon With 188
Exhibits in Place

POULTRY CLASSES ARE FILLED

With More Than 160 Entries, More
Coops Had to Be Imported to
Meet the Demands

The Rush County Products Show with exhibits rivaling any county fair, was opened in full swing today with entries in every township class and in every department of the show. Awards totalling more than \$1,200 will be made in the five departments, the corn show, hogs, poultry, ladies department and the girls' club work.

Judging in most of the classes was to begin this afternoon, and by noon tomorrow it was expected that the awards would be made in the various classes.

The ladies' and girls' departments were arranged in the court house, while the poultry, corn and hog show is being held at the Kirkpatrick garage in South Morgan street.

The cooking department in charge of Mrs. E. J. Chambers, was divided into six classes and a total of 188 entries were recorded today. In these classes, cakes led the list with 92 entries, and in the next class ranked bread with 40 entries. There also are 25 entries in pies, 12 in sugar cookies and 8 entries in the corn pone class, Miss Grace King of Purdue will act as judge in all classes of the ladies departments.

Mrs. Oscar Rees has charge of the girls' club entries which include needlecraft. The 4H sewing club, conducted under the auspices of Purdue University, has six girls in the first year class and a like number in the second year class, and their exhibits are on display. There also are several entries in another class for girls who are now members of the club work.

Each township is well represented in the corn show, which is in charge of Superintendent W. A. Alexander, and in which there are a total of 165

DR. ALFRED HENRY SPEAKS TO ROTARIANS

Indiana Leader in Anti-Tuberculosis
Work Says Disease Can Be Cured
Here as Well as Anywhere

SONGS BY NEGRO CHILDREN

Dr. Alfred Henry, an Indianapolis Rotarian and leader in anti-tuberculosis work in Indiana, addressed the Rotary club at the weekly luncheon today, stressing the importance of controlling the disease by an early diagnosis. He presented statistics to show the progress which was being made in the fight, calling attention to the fact that the death rate had been considerably decreased in Rush county in the last twelve years.

A group of sixteen children from Washington school sang some negro spirituals and demonstrated what they were doing in music in the school under the direction of Miss McConnell. They were loudly applauded. Following the meeting, all of the Rotarians visited the County Products Show in a body.

Dr. Henry pointed out physicians were changing front on a cure for tuberculosis for they had learned it was not necessary to change climates. There is no specific cure, as in infectious diseases or surgical cases, he stated, which makes it hard to fight, but there is a cure which is a combination of things, bed rest, air, good food, peace of mind and medical attention.

RULING GIVEN ON ATTENDANCE LAW

Important Decision Handed Out in
Connection With The Education
Week in The Schools

COMPULSORY LAW IS DEFINED

Pupils Finishing Eighth Grade And
Not 16 Years Old, Must Continu-
ue in High School

An important ruling on the attendance law which has been widely misconstrued, has been given out by U. S. Lesh, attorney general for Indiana, as a part of the American Education Week, which is being celebrated throughout the county this week by the public schools.

The week is being devoted with exercises and programs in order to bring the public into closer relationship with the school system.

A child who has completed the eighth grade and has not reached his sixteenth birthday, must continue into high school even if there should not be a high school in the township in which the pupils resides, is the decision handed out today on the law.

The opinion is of interest in Rush county as the same question has arisen several times during the last few months. County authorities have held that children must continue their education until they have attained the age of sixteen years and if no high school is maintained in the township in which they live their parents are required to provide transportation to a high school in some other corporation.

The question arose with the enforcement of the compulsory attendance law enacted by the last Indiana Legislature. Many parents were of the opinion that if their children completed the eighth grade before they were sixteen years old the law did not apply to them. In Posey county a judge dismissed a case filed against a father on the ground that the township provided no high school. The ruling of the attorney-general is contradictory to that decision.

Some parents in Rush county whose children come within the law contended that it was the duty of the trustee of the township to provide transportation facilities for a child who is required to attend high school in some other township. Local authorities held that there is no fund from which that transportation must be provided by the parents. The trustee, however, is required to pay the tuition of a child that attends school outside of the township in which he lives. The contention of the local school authorities has been upheld by the state educational authorities.

"The law looks to substance and

CITY COUNCIL WILL MEET

Present Officials Have One More
Meeting Together After Tonight

The city council will meet tonight in their first regular session for December, it being three weeks since their last meeting on November 15. The council will have only one more regular meeting before the new officials take office, excepting a noon meeting on January 2, when the new officials will take office.

The matter of purchasing a motor fire pumper will most likely be disposed of tonight. The councilmen have been ready to make a purchase for several days, following their visit to the various factories, but on account of the absence of Mayor Scudder, the matter had been postponed. It is understood that the matter will be disposed of tonight, even in case of the absence of the mayor.

GLEE CLUB HERE THURSDAY

Next Attraction of Mattox Circle
Course at M. E. Church

The next attraction on the winter entertainment course which is being given here under the auspices of the Mattox Circle, ladies of the G. A. R., will be held at St. Paul's M. E. church Thursday evening. It will be a concert by the Kenilworth Glee Club, a lyceum organization that was highly recommended to the Rushville organization of women.

The concert will be given at 8:30 p. m. so as not to interfere with any other meetings that evening. The glee club is composed of four young women vocalists and a reader of exceptional merit. It is stated that this is an attraction of great worth, in proof of which is cited the fact that 75 cents is charged for the concert in many places.

HARDING OFFERS A DEFINITE PLAN

President Proposes to Congress
Comprehensive Program For Re-
storing Country to Normalcy

NOT TRYING TO "SAVE" OTHERS

America Will Help Unselfishly When
Other Countries Turn to Heroic
Remedies For Menaces

(By United Press)

Washington, Dec. 6.—President Harding today proposed to congress a definite and comprehensive program for restoring the United States to normalcy.

Speeding up of plans to put America again on a sound, normal basis is America's best contribution to a world-wide restoration, the president said, with representatives of all the world powers here for the arms conference in the galleries of the House.

Harding served notice that the United States has no intention of trying to "save" other nations. They must save themselves, he said.

America will help unselfishly when they "turn to the heroic remedies for the menacing conditions under which they are struggling." No American policy alone will cure the world's ills Harding said. By saving ourselves, he declared, he will help the rest of the world save itself.

The president's policy was clearly outlined in discussing the need for a high tariff.

"Sensible of every obligation of humanity, commerce and finance, linked as they are, in the present world condition it is not to be argued that we need to destroy ourselves to be helpful to others," he said. "It were better to remain on

AUTO ACCIDENT IS BASIS FOR A SUIT

Joseph Schulte Demands \$400 From
Cortez Tonges After Mix-up
South of Sandusky

SAID DRIVER WAS RECKLESS

Joseph Schulte today filed suit in the circuit court against Cortez Tonges of this county, the complaint being for damages as the result of a collision between two automobiles on a road about a mile south of Sandusky, early this fall.

Schulte alleges that he was driving his Ford on the Rushville-Greensburg highway, and that Tonges ran into his machine at the intersection of a road, without giving warning of his approach. The defendant is charged with operating his high powered automobile in a reckless and careless manner.

According to the complaint the Ford was badly damaged in the collision that followed, and it is upon this that the suit was filed. Each of the two paragraphs demand \$200 judgment for the alleged damage to the Ford.

The plaintiff in the action is represented by C. W. Duncan, attorney.

SEEKS CLEMENCY FOR HIS CRIME

Victor Ellerman, Rush County Man
Presents Plea With The State
Board of Pardons

WAS REFUSED ONCE BEFORE

Letter From Fellow Prisoner Told
of His Threats and His Former
Plea Was Turned Down

In the list of cases before the state pardon board for clemency, which will be in session during the week of December 12, appears the name of Victor Ellerman, sentenced from Rush county October 30, 1919 for a term of one to fourteen years on a grand larceny charge. His case is one of 44 appeals from prisoners asking for release from the state institutions.

This is the second attempt of Ellerman to gain his freedom since he was committed to the state prison. He was sentenced from here for grand larceny, in connection with the theft of paint from William J. Knecht, north of Rushville.

Following his arrest and conviction, he escaped from Sheriff Jones at the I. & C. traction station on the morning of his departure to the state prison, but he was caught late in the day near Shelbyville. Shortly before he applied for clemency about a year ago, a prisoner wrote to Prosecutor Stevens here, stating that Ellerman had made remarks as to what he was going to do when he got out of prison.

According to the letter, Ellerman threatened to do someone harm, and also intimated that he would burn the house of the man who had him sent to prison. This letter was turned over to the pardon board, and his pardon at that time was refused. His case will be opened again when the board is in session next week.

MRS. ANN MADDEN, 79 DIED EARLY TODAY

Wife of Bernard Madden Expires
After Long Illness Leaving Hus-
band and Five Children

WAS BORN IN IRELAND

Mrs. Ann Madden, wife of Bernard Madden, died this morning about 6:30 o'clock at the family home, 833 North Main Street, death being caused from cancer. The deceased had been in poor health since April.

Mrs. Madden was born 79 years ago in Ireland, but had lived in Rushville for the past 46 years, having moved from Richmond to this city. She had been in declining health for some time, but her last illness began in the spring.

The husband and five children survive, who are Bernard T., Lawrence, Frank, Jennie and Theresia, all of whom reside at home in this city. The deceased also is survived by a sister, Mrs. Mary Kelley of Indianapolis.

The funeral arrangements were not completed today.

LEGION TO HAVE SHOW

Musical Comedy, "Oh, Oh, Cindy"
Will Be Staged in January

Another big home-talent show is being planned for the latter part of January, it was announced today, and the Rogers Producing Company has been engaged to put the show on for the benefit of Rush Post No. 150, American Legion. The musical comedy, "Oh, Oh, Cindy" has been selected, and a cast of over 150 people will be selected to have part in the play.

The Rogers company is the same which successfully put on "Katcha-Koo" and "All Aboard" in Rushville recently. The exact date of the show has not been made public, but it will be given two nights at the Graham Annex auditorium.

Irish Peace Terms

Birmingham, England, Dec. 6.—Ireland, under the peace settlement, signed by representatives of the British and Sinn Fein governments will be known as the "Irish Free State," Lord Chancellor Birkenhead announced today.

The provisions of the agreement as outlined by Birkenhead are:

The new dominion is to be known as, "the Irish free state."

It is to have the same status as Canada, Australia, New Zealand and South Africa, with one reservation.

In matters or finance the free state government will rule supreme.

The government must pay a portion of the national war debt.

Sinn Fein must give reasonable guarantee to South Ireland Unionists minority.

If Ulster does not want to join the free state she may retain her own status. In that case she will submit to the rule of a boundary commission which will determine the boundary line between Ulster and the free state.

If parliament does not sanction these terms Birkenhead predicts the government will go before the people and issue and submit to a general election.

"This pact was signed in the same room in Downing street that the decision to enter the world war was made. Now it has a new phase of British history."

TOKIO APPROVES THE NAVAL RATIO

Report Says Japanese Diplomatic
Advisory Council Consents to
Hughes 5-5-3 Plan

CONFERENCE AWAITS REPLY

Every Reason to Believe Japan Will
Also Accept Big Three Plan In-
volving Scrapping Alliance

(By United Press)

Tokio, Japan Dec. 6.—The Japanese diplomatic advisory council has approved the 5-5-3 naval ratio, the United Press was reliably informed today.

Washington, Dec. 6.—With the arms session virtually suspended waiting on the Japanese reply to the quadruple agreement on the naval ratio proposal, the Far Eastern conference today had reached a delicate stage.

There appeared every reason to believe Japan will accept the big three plan involving scrapping of the Anglo-Japanese alliance and substitution of the four-crowned agreement.

The Tokio answer may be delayed several days. Meanwhile the Far Eastern parley was in an argumentative and controversial condition.

The Chinese dissatisfaction with acceptance in principle and delay in action on concrete proposals had flamed out in the resignation of Secretary General Dr. Tyan, also a minister to Cuba.

The Chinese held the Japanese were unmanageable and played a dilatory game, and were wanting certain territories in the Far East to which they had no right.

Following the example set by Secretary General Tyan, three of the Chinese delegates' chief advisors, General Huang Fu, Tai Ting Kan and Chow Tsi Thi resigned their places today.

QUARREL OVER MOONSHINE

Chicago, Dec. 6.—Mrs. Lucy Blake shot and killed her husband, Walter, today in a quarrel over moonshine liquor.

NEGOTIATIONS ARE SNATCHED FROM FLAMES

Eleventh Hour Agreement Between
Britain and Sinn Fein Reached
in Small Hours of Morning

PACT RUSHED TO BELFAST

Her Acceptance of Peace Terms is
Regarded Most Probable—Two
Parliaments to Consider It

AUTHORITIES ARE CONFIDENT

Believe Agreement Reached When a
Breakdown Seemed Imminent, Will
Be Approved by All Factions

BY ED. L. KEEN

London, Dec. 6.—The Irish peace negotiations were snatched from the flames today.

An eleventh hour agreement between Britain and Sinn Fein was reached in the small hours of the morning in Downing street after hours of heated discussion. The pact was rushed to Belfast for the sanction of Ulster. Her acceptance was considered most probable.

At a British cabinet meeting shortly after noon, the agreement was approved.

King George sent a message to the premier expressing his joy at the news. He wrote:

"I am overjoyed at the splendid news and I congratulate you heartedly."

Authorities are confident the agreement would meet the approval of all factions.

Details will be submitted for publication Wednesday morning.

The news of the agreement sent a thrill throughout England. London had been prepared for the gloomy news of a breakdown and then at the eleventh hour, as the fragile negotiations hung by the tiniest thread over a chasm of despair, after months of fruitless work and worry over the terms a ray of light struck out of the darkened sky and flashed on the door at No. 12 Downing street at 2:15 a. m.

Wearily delegates, worn by hours of brain conflict, straggled out and climbed into their cabs to go home to bed.

The Irish question had been met. "The news is not so bad," a cabinet member said. "An agreement has been reached."

"It was learned the agreement was signed by Premier Lloyd George, Austen Chamberlain, Lord Birkenhead

DAMAGE SUIT GETS UNDER WAY IN COURT

Case of John Jackman of Milroy
Against Big Four, Halted Monday
Begun Before Jury

JUDGMENT FOR HOGS SOUGHT

The damage suit of John Jackman against the Big Four railroad, got under way this morning in the circuit court after being continued from yesterday, when a witness could not attend the trial. The jury which was selected yesterday, was sworn in this morning and the evidence begun.

The suit may continue until about alleges that in October of 1920, the fact that only a portion of the evidence could be given today.

The suit as filed by the plaintiff, alleges that in October of 1920, the plaintiff shipped two car loads of hogs from Crawfordsville to Milroy over the Big Four, and that there were 45 head of the hogs that did not reach their destination. The plaintiff seeks \$800 judgment for the hogs which he alleges were not delivered.

The plaintiff in the suit is represented by Tittsworth and Tittsworth, and the railroad by Donald L. Smith of this city.

Fine for Lumbago

Musterole drives pain away and brings in its place delicious, soothing comfort. Just rub it in gently.

It is a clean, white ointment, made with oil of mustard. It will not blister like the old-fashioned mustard plaster.

Get Musterole today at your drug store. 35 and 65c in jars and tubes; hospital size, \$3.00.

BETTER THAN A MUSTARD PLASTER

Price vs Quality

BY WM. G. MULNO

When a man enters a clothing store with the intention of buying a suit, there are two factors prominent in his mind—price and quality.

With some men, the two words would stand in the order in which they were just written, while with others, the order would be reversed.

With so many demands upon a man's income, price is, of necessity, an important consideration; every man is eager to be as well dressed as possible upon the sum that he feels able to spend for clothing and still keep within his means.

But there is one thing to be borne in mind—quality is remembered long after price is forgotten. One often hears the remark, "This is a fine wearing suit." But you seldom hear, "This suit did not cost much."

A suit that falls to pieces or soon loses its shape is dear at any price. If a man buys a cheap suit which looks good in the store and which he thinks "will do," he does not stop to consider that in a short time he will be in the same position, buying another suit; when if he had paid a little more the first time and not allowed an attractive price tag to overcome his scruples as to its wearing quality, he would still be wearing a shapely suit and be several dollars ahead.

Quality is economy whether applied to a suit of clothes or to an automobile. Inferiority in either will cost more in repairs and in trying to make it look presentable—more in time and money than the average man can afford to pay. Another thing: throughout the possession of either suit or auto he feels no confidence in it, nor can he feel proud of its appearance at any time.

The clothier who sells good clothing at a fair margin of profit is the man to patronize, for in dealing with him one is following the lines of true economy. And nowadays "economy" and not "variety" seems to be the "Spice of Life."

Know a man by his clothes!

Continued from Page One

head and Winston Churchill for Britain and Arthur Griffith, Michael Collins and George Harton for Sinn Fein.

The news was given too late for comment in the early morning papers but observers today were hailing Lloyd George for his success in exhibiting his characteristic strategy before his eleventh hour master stroke.

The British leader gave both Sinn Fein and Ulster refusals which drew from them the maximum concessions.

Furthermore he set a time limit by promising Sir James Craig that "if you do not hear from me by Tuesday, you will know negotiations have been broken off."

This whefted the eagerness of the negotiators and added to the effectiveness of the dramatic last minute study of the crisis.

The suspend, of course, was continued until the definite answer of Sir James Craig is received, though it is confidently believed Ulster cannot now refuse an experiment in an all-Irish parliament.

There is only speculation as to the contents of the new document, but it is expected the plan embodies a dominion parliament from which Ulster will be privileged to withdraw.

It is believed the question of an oath of allegiance to the king is avoided by the triple oath "to the Irish Free State, the Empire and the King."

Some say that there has been a clause inserted in the oath which prescribes recognition to "the head of a community of nations known as the empire," instead of mentioning the king, but this was mere speculation.

The agreement also revived the belief that Lloyd George will be able to leave for Washington Saturday.

A further test of the wariness of the clever premier was made when he goes before the parliament. It is, of course, known that numerous individuals for political reasons will seek to frustrate the slightest infringement of England's authority to oppose his stand. However, it seemed most probable that none will have the nerve to seriously challenge him on the eve of what is probably his greatest success. It is thought any attempt at revolt will only be temporary. The result will undoubtedly be a further strengthening of the Lloyd George power.

The Freeman's Journal in Dublin hails the news with delight. "The minority in Ireland no longer will be able to prevent a peace with honor," it states. "Ireland needs no assurance that the terms are in harmony with the principle for which she stands."

Lloyd George was aware from the first that these principles contain no menace to the interests of Great Britain. The fact at last appears clear to British statesmen.

"Ireland has given the strongest of all proofs of her desire for peace."

She now looks to Lloyd George and his colleagues to do their part to protect her from any resultant opposition."

RULING GIVEN ON ATTENDANCE LAW

Continued from Page One

not to shadows," said Mr. Lesh, "and correctly construed, it never requires an impossible or foolish thing to be done. It would be useless and foolish to require a pupil who has completed the elementary schools to re-enter them simply because he is less than sixteen years of age, or because there is no high school near at hand."

"The law has placed a high school education within the reach of all children. Such schools form parts of the public school system and the legislature has required that pupils shall attend them where they finished the lower grades before becoming sixteen years of age. There

is nothing in the law to excuse him from attending on account of the fact that his school corporation has no high school. It is, therefore, my opinion that where a child is a graduate of the eighth grade and there is no high school in the corporation where he resides, he is required to attend a high school of some other school corporation, where he can be better accommodated or some other high school taught in the English language and the fact that no high school exists in his school corporation will not exempt him from further school attendance."

All Expectations Exceeded In Products Show Entries

entries. This includes 13 junior entries by boys.

The following is the list of entries by the townships: Ripley 12, Posey 20, Walker 7, Orange 21, Center 15, Jackson 9, Rushville 17, Anderson

10, Washington 7, Union 11, Noble 13 and Richland 10.

The judging of the corn is to be made by Prof. Wyance of Purdue and Fred Palin of Newton, Ind., who is noted for his \$10,000 Kellogg ear.

Additional hog pens had to be built this morning in order to accommodate the big number of entries in the different classes and this afternoon a total of 118 entries had been made in the five different classes.

The classes are divided into the Poland Chinas, Duroc, Hampshire, Spotted Poland and Chester White. This department is in charge of Lucie Jinks.

The expectations in the poultry show also were beyond the means of providing coops, and it was necessary this morning to send to Connersville for additional coops which were used in a show there last week. A definite count had not been completed on the number of entries, but shortly before noon there were

HENDERSON MAN ARRESTED

William Gatewood Will Stand Trial In Justice of Peace Court

William Gatewood of Henderson was arrested late yesterday by the deputy game wardens, and he was arraigned before Justice Stech on a charge of hunting without a license. Mr. Gatewood pleaded not guilty and will be tried on December 14 at ten o'clock. He maintained that he was carrying a gun, but that it was not loaded.

A jury will be used in this court tomorrow when Oscar Newhouse will be tried on a similar charge. He was arrested last week and had entered a plea of not guilty.

"Pape's Cold Compound" is Quickest Relief Known

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks any cold right up.

The very first dose opens clogged nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, feverishness.

"Pape's Cold Compound" costs only a few cents at drug stores. It acts without assistance, tastes nice, contains no quinine—Insist upon Pape's!

ED ALSMAN, 44, SUGGUMBS

Former Arlington Man Dies Today at Naheim, California

Ed Alsmann, aged 44 years, died this morning at his home in Naheim, California, following a several years illness of tuberculosis. The deceased was a former resident of Arlington, and had gone to California last September for his health. He was a member of the Odd Fellows lodge, which will have charge of the funeral services. The survivors are a widow, and two sisters, Mrs. Mary Silvers and Mrs. Mary Ball of Cambridge. The funeral services will be conducted in Arlington when the body arrives from California.

INGROWN TOE NAIL

How to Toughen Skin so Nail Turns Out Itself

A few drops of "Outgro" upon the skin surrounding the ingrowing nail reduces inflammation and pain and so toughens the tender, sensitive skin underneath the toe nail, that it can not penetrate the flesh, and the nail turns naturally outward almost over night.

"Outgro" is a harmless, antiseptic manufactured for chiropodists. However, anyone can buy from the drug store a tiny bottle containing directions.

AMUSEMENTS

Rosemary Theby at Mystic

"Good Women", the Robertson-Cole super-special, directed by Louis J. Gasnier, will be seen for the last time tonight at the Mystic Theatre. This unusual production, from the pen of C. Gardner Sullivan, has pleased the audience at every performance.

"Good Women" answers the question with regard to just how far a woman may go in disregarding modern conventions. Just how far she may transgress, and then through mental expiation, be received again within the realm of decency. The picture presents a problem which you have met in everyday life but which you have dismissed without the proper amount of consideration.

Katherine Brinkley, played by Rosemary Theby, believes that slavishly following the conventions of modern society is unworthy of the freedom which is woman's birthright. Following a series of adventures in New York's gay Bohemia, she eventually runs away with Nicolai Bronevitch, a Russian pianist, under the impression that she has at last met her soul mate. Bronevitch is a married man.

The pianist, who is vain emotional and shallow, tires of the girl at about the time she discovers the mistake she has made. He returns to his wife and Katherine finds herself facing the cold reality that she has brought upon herself. It is then

she realizes how little actual freedom she possesses and the real reason for following the conventions.

Wanda Hawley at Princess

Lincoln Plumer, who first appeared in screen comedies with the Sidney Drews, has an amusing role in Wanda Hawley's latest picture, "Her Face Value", which will show for the last time at the Princess today. Miss Hawley portrays a chorus girl who graduates into the movies, and Mr. Plumer enacts the role of the heroine's shiftless father, who sponges on his hardworking and generous daughter. T. Roy Barnes will be seen as leading man.

The first picture to present Gloria Swanson as a star in her own right is "The Great Moment", by Alne. Elinor Glyn, a Paramount picture, which comes to this theatre Wednesday and Thursday.

Miss Swanson has the role of a half gypsy girl who tries vainly to still the tumult in her heart engendered by her partially nomadic ancestry, and the role is said to fit her wonderfully.

Miss Swanson had just completed her work in the all-star cast of Cecil B. De Mille's "The Affairs of Anatol" when she was called upon to embark on her first stellar production. With her accustomed vigor she entered upon her duties with a full determination to excel anything she had done before.

LETTERS TO SANTA CLAUS

Dear Santa: Please bring me a sled and anything else you want to bring. Don't forget my little friend Grace Junken. She wants a doll.

Your little boy,
WM. J. GOODSON

Dear Santa Claus: For Christmas I would like a basketball, a bee bee gun, a typewriter and a cornet. Please bring me some nuts, candy and some oranges. Don't forget my mother, father and sisters.

Your loving boy,
WM. ROBERT ELDER.

Dear Santa Claus: For Christmas I would like a walking and talking doll, a bedroom set, a piano, and a doll house, and candy, nuts, oranges. Don't forget my mother

father and sisters and my brother. IRIS MARIE ELDER

P. S. Please bring me a doll cab also.

Dear Santa Claus: Please bring me a doll, a set of dishes, a toy machine, a tricycle and candy, nuts and oranges.

Yours truly,
MARY E. MILLS.

Dear Old Santa Claus: I am a little boy nine years old and have a little brother Robert William, that is five years old and as things are so high, I was afraid you'd miss us this year. Please bring me a coaster wagon and Robert William a tricycle, also some candy and nuts. Ever your little friend,

firm ground, strive for ample employment and high standards of wage at home and point the way to balanced budgets, rigid economies and resolute efficient work as the remedies to cure disaster."

The arms conference was referred to only briefly by the president.

"It is easy to believe a world hope is centered in the capital city," he said. "A most gratifying world accomplishment is not impossible."

Outstanding in the president's recommendations for bringing this country back to normal conditions were:

Creation of a virtual industrial court to have judicial power to deal with labor disputes affecting public interest.

Prompt enactment of the permanent tariff bill with adoption of the American valuation plan and a provision for fixing of variable duties by presidential order.

Revision of the shipping act to be based on the recommendations shortly to be made in a special message.

Enactment of the allied debt funding bill.

Encouragement of co-operative market programs to aid farmers.

A constitutional amendment to prohibit non-issuance of taxable securities.

Extending the reclamation legislation to aid soldiers and to provide more homes.

Some revision of the tax bill recently passed.

Do Want Ads Pay? Ask your neighbors.

Seals Honor Roll

The sum of \$63 was added to the amount realized from the sale of Christmas Seals today, bringing the total to \$169 raised in Rushville alone. Don't try to save money buying cheap or big-can Baking Powders. You can't do it. You'll throw out more in spoiled bakings than you save on price of the powder. And don't think that old style high priced powders are best because they cost most. They are not.

CALUMET BAKING POWDER

has proved in millions of bake-day tests that it is the best baking powder ever made—that's why it is the biggest selling baking powder in the world today. No other baking powder makes such temptingly good—tender, wholesome bakings. No baking powder of anywhere near the same quality is sold at such a low price.

You use less of Calumet—because it is the highest grade baking powder. One teaspoonful is equal to two teaspoonfuls of many other brands.

And there is no "luck" about it when you use Calumet. No loss. It is absolutely sure. It is the most economical of all. Millions of housewives use it—and so do leading domestic science teachers and cooking experts.

You save when you buy it. You save when you use it.

Calumet contains only such ingredients as have been approved officially by the U. S. Food Authorities.

HIGHEST QUALITY AWARDS

SOME SHOE

(For Men or Women Only)

I was once a worried shoe clerk. Working every day to find A shoe to give a perfect fit. And also please the mind.

I tried to fit them wider; I tried to fit them long. But it always seemed impossible. Because the shoes were wrong.

I studied all the magazines. Of arch supports and shoes. I took a correspondence course. And yet I seemed to lose.

But all my troubles faded. And life now seems worth while. For Selby's Arch Preserver Shoes. Made every wearer smile.

Music Interest

It is both interesting and encouraging to lovers of music to note the interest which is being revived in

music in Rushville through the activity of Miss Sarah McConnell, the supervisor of music in the public schools. School children are being imbued with a new appreciation of music and their parents and other grownups who come in contact with them are feeling the effects of their enthusiasm.

To the average boy, music in the public school course was always a nightmare. The rough and tumble youngster who in the springtime longs for a tramp in the woods while school is in session, and in the wintertime never satisfies his desires for a romp in the snow, never could understand the need of "wasting time" in learning the scale or how to read notes.

Many a boy has almost lost interest in school because of the deadly tediousness of music and his failure to make any headway at it. Not many boys are so constituted that they can sing or enjoy singing. If there is a way to bring them into an appreciation of good music, it is possible that they will be patient enough to learn the rudiments of music.

Youngsters are being provided

with a new interest in the course through the organization of orchestras. This gives them a goal, something to work for when they are learning the tiresome scale and becoming familiar with the numerous signs which is necessary in music reading.

With such an "atmosphere" created in the schools, it is not difficult to direct the music sentiment of the community into new channels. The organization of a community orchestra is very commendable and will be of immense benefit to Rushville. It satisfies the desires of the musicians who enjoy playing as other people enjoy their diversions from work. And it likewise arouses a new community interest and pride which is necessary to healthful growth.

From a successful community orchestra, it is but a step to community singing and the development of a new neighborliness and better understanding between people. The value of community singing was demonstrated during the war in patriotic drives because singing was found as one means of reaching a man's pocketbook. It inspires men and women and is productive of a common bond of fellowship which is bound to bring about good in every community activity.

Two peace developments that the conference seems to have overlooked. The ex-kaiser's chromo in the German embassy at Washington has been tossed into the ash-can with the rest of the rubbish, and the Krupps are making cream separators.

It would be crudely discourteous of course, to call Admiral Kato a son of a gun. Besides, it might start another war, than which we are on nothing else more fed up. Just the same, his biographer declares him to be the son of a shogun.

If we are to believe Granny Grouch, the girls wear their skirts at half-mast out of respect to dead Innocence.

The man who first called it X-mas must have done so because he managed to squeeze past with one ten-dollar bill.

From The Provinces

Can't Beat Them, So Annex Them

(Ohio State Journal)

The Springfield Republican refers to Cleveland as a near-Eastern city, and we suppose this is the first step to annex Mid-Western football and claim it's Eastern, as it does not seem to be able to do much of anything else with it.

Also Her Front and Sides

(Houston Post)

Still, the beautiful young actress who had her costume censored by our Board of Censors needn't think Houston is exactly mad at her and don't want her ever to return. We will all be glad to see her back again.

She Must Be a Good-Looker

(Buffalo Express)

We didn't have the heart to enlighten her after the sweet young thing told us that she hoped the naval holiday would fall on a Monday, so the working people would have Saturday and Sunday off, too.

Something Henry Overlooked

(Birmingham Age-Herald)

Mr. Ford hasn't stopped to consider that if he creates great industrial enterprises in the South a considerable part of our population will be able to ride in more expensive cars.

Many Thanks, Sir

(Pittsburgh Gazette-Times)

One of the writers on the Washington Conference has decided to postpone the American-Japanese war, and, possibly, he will not have it at all. He is truly magnanimous.

Current Comment

The American Atmosphere

(New York Tribune)

The free countries of Europe, in the form of their institutions, are as democratic as the United States—in some respects more democratic. But that, after all, there is a difference has been shown in Washington during the last few days.

One can't easily imagine the British House of Commons or the French Chamber of Deputies present as guests at a solemn international gathering openly and vociferously cheering on favorite orators. "This is delicious," remarked one foreign observer. "It marks the democratization of the conference."

Nor is it easy to imagine, while the echoes of the first fall of the gavel lingered in the air, the chairman saying in effect: "Gentlemen, we are assembled for business. Let's get down to it at once. I propose the following plan." Such startling directness is not in the European fashion.

Even more notable has been what has happened since. Much discussion has occurred over whether the meetings should be open or closed. The debate was unnecessary. This country is one where publicity is screaming and where the press knows how to get at the facts needed to satisfy public curiosity.

Though the most positive mutual pledges had been given by the delegates to keep mum, secrecy was the executive sessions of the Senate has developed a technique of uncovering the covered. The process is simple. Some link in the chain of silence is not strong enough to resist the temptation to get the case before the public. When one talks others must talk, unless willing to have an issue go to the public in a one-sided manner. Abroad it is good newspaper manners to respect hints from the government to keep still. Here anything deliberately held back has special news value, and there is an unholy seal to publish it. Censorship thus quickly withers.

The American atmosphere has affected the methods of the conference and perhaps will affect its conclusions. The enthusiasm of a crowd is infectious. It takes an unusually strong personality to resist envying influences. Nor on balance does it appear that good results are lessened by America's tumultuous way of handling even the gravest and most dignified of problems. Dignity suffers and the feathers of propriety are ruffled, but business gets done.

Washington—Somebody stole a case of champagne from the French delegation. Four extra secret service men have been put on guard.

A WOMAN'S WAY

"I tried for four months to get my wife to try Mayr's Wonderful Remedy, which I know had helped a friend of mine who also suffered from stomach trouble. She insisted her case was different. I finally had to bribe her with a new dress. The first dose produced remarkable results, clearing up her complexion and restoring her appetite. She can now eat things she hadn't been able to for many years." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. For sale at Druggists everywhere.—Advertisement.

YOUR MOTHER AND MINE KNEW THE VALUE OF COD LIVER OIL AND IRON

Well do I remember how my mother used to make me take the nasty tasting Cod Liver oil—how I hated it—but it was good medicine.

For a hundred years the medicinal elements contained in the cod's liver and oil have been regarded as the safest and best strength and body building medicinal agents known.

Many people however—especially children—cannot take it because of the nauseating oil which upsets the stomach.

In Vinol we now get all the medicinal value of cod liver oil and emulsions in a delicious tasting form and entirely free from grease and oil—children love to take it and people with weak stomachs find it agrees with them perfectly—therefore it is better.

If you are run down, weak, losing weight, nervous, take Vinol. Your money will be returned if it does not help you.

If you have a stubborn cough or cold take Vinol. Your money back if it does not help you.

If you have a delicate child, give it Vinol. It has helped thousands of children in this State. If it does not help yours, your money will be returned.

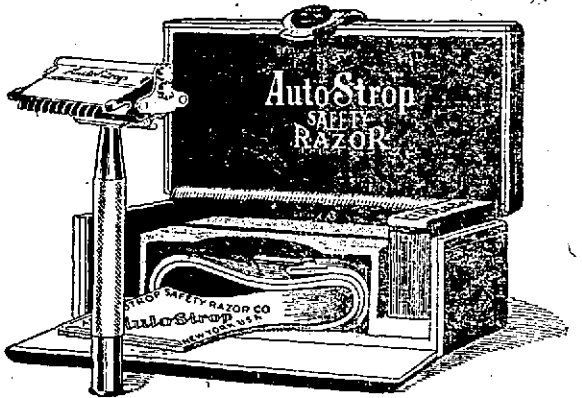

For feeble, old people there is nothing in the world so successful as Vinol to sustain strength and prevent colds. It builds them up, and keeps them up. Money cannot buy a better medicine.

Read the wonderful testimonials we are publishing in this paper almost every day, then get a bottle of Vinol on our guarantee.

IOWA HAS HOPES WITH GRID STAR

Devine, Quarter Back on Football Squad, is Being Drilled For Back Guard Position on Net Team

VETERANS ALSO TURN OUT

Coach Has Four of Last Year's Men Ready For Position And Many Candidates Aspire

Iowa City, Dec. 5—Much hope for the success of the Iowa basketball quintet this year rests upon the shoulders of Aubrey Devine, fleet quarterback, who carried the Hawkeyes through a sensational season on the gridiron.

Devine is being drilled for back guard, left vacant by Kaufman, the only letter man to graduate last spring. Other posts will be fortified by veterans.

Four of the candidates on the large squad which is reporting daily have played together for three campaigns. Headed by Captain Frank Skimek, who is slated for running guard, Coach Jimmy Ashmore has has Lohman, Frohwein and McGovey, all seasoned Big Ten performers.

Frohwein and Lohman are battling for forwards against a fast field of yearlings, with McGovey also a contender. The latter's rise last winter from third-string to the varsity was one of the greatest feats of the year.

Center aspirants are numerous. Of the four leaders, all of whom seem on a par, Barten, star of the freshman squad, appears to have an edge, mainly due to his size and speed. He is an accurate basket ringer, and has had a world of experience, placing on the all-state selections in high school.

For reserves Coach Ashmore can depend upon Weltmer and Brentiss, guards, both of whom won letters. Gordon is another who may figure prominently before the season advances far.

A barnstorming trip during the Christmas holiday period is planned in addition to games with small colleges, listed before the opening of the Big-Ten campaign.

If Devine shows anything like the proficiency on the court that he did on the gridiron, close followers predict that Iowa will be in the fight all year for titular honors.

MATHEWSON NOT WORSE

Saranac Lake, N. Y., Dec. 6.—Reports that Christy Mathewson's health is growing rapidly worse were denied by his physician, Dr. Edward N. Packard, here today. Several days ago "Big Six" suffered a rise in temperature and following the usual course he was ordered to bed. Dr. Packard asserted, however, the fever is abating and there is nothing alarming.

Sloan's Liniment (Pain's enemy)

WALDRON WINS GAME ON A FREAK PLAY

They Say Ball Bounded Into Basket For Two Points After Striking Player on Head

MILROY DENIES A MIX-UP

Waldron high school attributes the result of the basketball game played between their school, and the Milroy school Friday night at Waldron, as being due to a freak play, when they won out 21 to 20. They claim that the winning goal was made following a toss up between McCorkle of Milroy and Kolkman of Waldron, when they both jumped at it, knocking it to the ceiling, and when the ball came down it struck Kolkman on the head and rebounded into the basket.

Coach McCullough of Milroy stated that there were no hard feelings between the two schools, and that the referee whistled for a dead ball, on account of one of the spectators interfering. Just as he tossed it between two players, the time keepers blew for the final time.

It was reported Saturday, and generally believed by several Milroy rooters that the referee had called a foul instead of a dead ball for a toss between the two players.

PREPARING FOR CARTHAGE

High School Band and Rooters Will Make Trip on Friday Night

The followers of the high school basketball team, headed by the high school band, will invade Carthage Friday night, when the two teams will clash for the first tilt of this season. Each team is far better this year than last, and indications point to a hard fought game. Carthage has been stepping out fast this year and by comparing the two scores, the teams look evenly matched. Spieland was defeated at Carthage, 30 to 19 and Rushville defeated the same team 29 to 16.

The auditorium at Carthage is being enlarged with a balcony, and 200 seats will be held for the Rushville visitors.

KNOCKS OUT K. O. BROWN

Memphis, Dec. 6.—Carl Tremain, Cleveland bantam, knocked out K. O. Brown of New Orleans in the fourth round of a scheduled 8 round bout here last night.

MIKE GIBBONS WINS

St. Louis, Dec. 6.—Mike Gibbons, St. Paul phantom, beat Angie Ratner, New York, in a slow and uninteresting 12 round bout here last night.

CAVEMAN IS TAMED

New Orleans, La., Dec. 6.—Young Eddie Fitzsimmons of Oklahoma found Frankie Carbone, the Jersey caveman, tame last night and was given the referee's decision at the close of their 15 round bout.

RE-ELECTED PRESIDENT

Chicago, Dec. 6.—Julian T. Fitzgerald, Chicagoan, last night was re-elected president of the Western Skating association.

CENTRE COMING NORTH

Chicago, Dec. 6.—Negotiations have been opened for a football game between Centre College and Northwest University in 1922, it was announced today. Notre Dame also may be listed.

AGREE DISCIPLINE IS A GOOD THING

Baseball Magnates in Buffalo For Annual Meeting Approve Action of Commissioner Landis

DRAFT SYSTEM IN FAVOR

Major League Moguls Are Admittedly Keen For It—Nine Cases in Dispute Disposed of

By HENRY L. FARRELL
(U. P. Staff Correspondent)

Buffalo, Dec. 6.—Baseball magnates here for the annual meeting of the National Association of Professional Baseball Leagues today generally expressed the opinion that the best interests of the game demanded the disciplining of the players, such as handed out to Babe Ruth, Meusel and Piercy by Commissioner Landis. They believed the severity of the penalty imposed would have the effect of putting a stop to barnstorming by contestants in future world series games.

The fine and suspension of the players has given an added interest to the appearance of Commissioner Landis here tomorrow evening when he will be the honor guest and chief speaker at a dinner given by the local committee to visiting baseball men.

Deals for players, President Michael H. Sexton's campaign for greater economy in the management of smaller league clubs and the possibility of reinstating the draft system were questions up for consideration. In the International and in the American Association nearly every club manager has a different idea as to how the draft problem should be dealt with.

The major league moguls admittedly are keen for the draft and that is one of the chief reasons they are so well represented at the present confab.

Only nine cases of the 100 odd had been disposed of by the national board of arbitration when the conference convened today.

The claim of Manager Stis of St. Louis against Springfield, Mo., team was disallowed.

DISPUTES TAKEN UP BY RAIL LABOR BOARD

Modification of Agreement With Maintenance of Way Men is Expected to Result

ABOUT 95 ROADS INVOLVED

(By United Press)

Chicago, Dec. 6.—Consideration of disputes over working rules between railway maintenance employees and the railroad companies was started today by the U. S. railroad labor board.

Modification of the national agreement made between the U. S. railroad administration and the maintenance of way men will probably result. Already this government has been suspended on nearly forty roads and replaced by an understanding entered into between each line and its employees. These understandings will not be affected by the board's ruling.

About 95 roads are involved in the dispute.

Agreement has been reached between the individual roads and the unions on all except six of the rules. These rules relate to overtime and pay of men while traveling to and from work. Only those rules still in dispute were taken up by the board.

TENNIS RANKS AS BIG MONEY SPORT

Not Only Goes Big as Outdoor Sport, But Also Figures With Championship Money

ONE GATE BROUGHT \$120,000

Davis Cup Match is Said to Have Netted Over \$70,000 And Other Affairs Rank High

By HENRY L. FARRELL
(U. P. Staff Correspondent)

New York, Dec. 6.—Tennis has not only developed into one of the most popular American sports but it now takes rank with the foremost of "big money" attractions.

The national men's championships at the Germantown Cricket Club in Philadelphia last September is said to have drawn a gate of \$120,000. The challenge round matches of the Davis Cup play between America and Japan brought in over \$70,000 at Forest Hills and the national woman's championships at the same club would have exceeded that mark if Mlle. Suzanne Lenglen, the French star, had been able to play through. In addition the exhibition tour of American stars staged for the benefit of Devastated France brought in \$10,000, although it was played off season.

It is only to be expected that professional sportsmen would look with eagerness at tennis as a money making proposition and it is understood that William T. Tilden, national and international champion, was offered \$25,000 recently to turn professional next summer.

Tennis perhaps, comes closer to a real amateur sport than any other American pastime. The number of professional instructors, compared to golf, is almost negligible and the star players get less out of their work than the great players of any other game.

Tilden wrote tennis articles for a syndicate last summer, as did Vincent Richards. Tilden is reported to have been paid about \$1,000 a month for his stories. But the champion adhered rigidly to the rule of the tennis association that players must write every word that appears in print under their names.

Many of the players are engaged in the insurance business and their connection with the game brings them in contact with most of the ultra-exclusive clubs of the country, where "prospects" are very lucrative. It is said that one of the Pacific Coast stars on his tour of the east last summer sold policies "the commissions" on which netted him \$20,000.

The association has done much to preserve a strict amateur standing among the players without doing them an injustice for the time and attention they devoted to the sport. The Maurice McLoughlin case of some years back recalls the stand the association took against allowing a player to capitalize his name by engaging in the sporting good business. Last winter the governing body of the game also passed a rule prohibiting the players from allowing the use of their name on any racquets or paraphernalia of the game.

FREEZONE

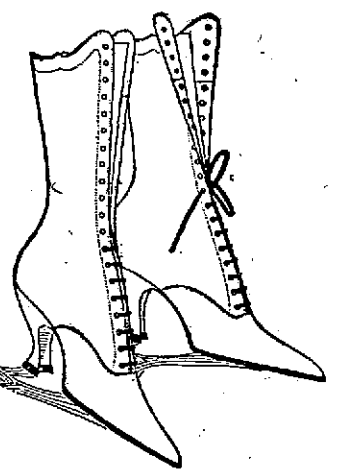

Corns Lift Off
with Fingers

Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. It doesn't hurt a bit. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without a particle of pain.

THE PAST AND THE PRESENT

In the Past our ancestors were content to use the candle with its dim, flickering rays.

In the Present (Today) we are privileged to use the steady, brilliant Electric light—the product of Science.

In the Past thousands of people went through life suffering from ailments that seemed to be incurable.

In the Present (Today) thousands of people are finding out that these same ailments yield readily to CHIROPRACTIC—the modern scientific method of removing the cause of Disease.

In the Past, the idea, a mistaken one, was to try and cure the effect without making any effort to find the CAUSE.

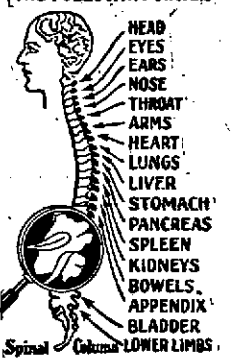

In the Present (Today) the SCIENCE OF CHIROPRACTIC strikes right at the root of the matter, adjusts the cause and Nature, the Great Healer, is given the opportunity to make the cure.

Nature never fails in this task.

If anything goes wrong with the Electric Light system of your town the TROUBLE MAN employed by the company is immediately sent for. He locates the cause of the trouble and adjusts it. The Chiropractor is your Health TROUBLE MAN. If you are ailing send for him. He, too, will locate the cause of your trouble and at once adjust it.

Live in the Present, don't live in the Past.

SOCIETY

Edited By Miss Edna Krammes
Phone 1111

Miss Helen Monjar will be hostess to the members of the Five Hundred Club tomorrow evening at her home in West Second street.

The Delphian Society will meet Friday afternoon in the assembly room of the court house. All the members are urged to be present.

The Pythian Sisters will meet Wednesday evening in the K. of P. hall. As officers will be nominated and elected at this time, every member is urged to be present.

The Band of Workers of the First Presbyterian church will meet tomorrow afternoon at 1.30 o'clock in the parlors of the church. All the members are urged to be present.

Friends and relatives delightfully surprised Mr. and Mrs. Thomas Smith at their home in North Sexton street last evening, the occasion being in honor of Mr. Smith's birthday. A delicious and bountiful pitch-in supper was served.

The Psi Iota Xi Sorority will meet this evening at the home of Miss Phyllis Dean in North Main street. Miss Alliene Budd will be the assisting hostess. Every member is urged to be present and are urged to bring their report of the Christmas seal sale.

The American Literary Club will be entertained Wednesday afternoon by Mrs. Martha Grindle at her home in North Main street. The members with their husbands will be entertained at dinner in the evening and the ladies of the first division will be hostesses.

Mr. and Mrs. Robert Jordan entertained with a dinner party Sunday at their home north of Arling-

ton. The guests were Mr. and Mrs. Floyd Woods, Mr. and Mrs. John Nelson, Mr. and Mrs. Earl Downey and son Buford Clair and Mr. and Mrs. Elmer Hutchinson.

The Progressive Boosters class of the First Baptist church will be entertained this evening at the home of Mr. and Mrs. Roy Saunders in West Fifth street. The assisting hostesses will be Mrs. Bert Mellwaine and Mrs. G. O. Palmer. All members are urged to be present as officers will be elected at this time.

The regular meeting of the Woman's Council was held last evening in the Callaghan store in East Second street. Plans were discussed for extending the serving of the milk to the Graham Annex school building, but this will not be done before the holidays. The reports for the month were read and approved and other regular business was disposed of.

Announcements have been received here of the marriage of Mrs. Fannie Harrison, daughter of Mr. and Mrs. W. A. Caldwell, of this city to Wyatt DeWitt of Indianapolis, which occurred at the Presbyterian church in Indianapolis last Thursday evening. The Rev. Gene Miller performed the ceremony. The bride who has been employed in Indianapolis, is well known here, having lived here all her life. Mr. and Mrs. DeWitt will reside in Indianapolis.

Mrs. George Hogsett entertained the members of the Tri Kappa sorority last evening at her home in East Sixth street. During the business meeting the sorority decided to buy a health bond and plans were made for a Christmas party to be given at the home of Mrs. Walter E. Smith, December 19. Mrs. Earle Hamilton of near Greensburg, was the only out-

of town guest present for the meeting. Dainty refreshments were served during the social hour at the close of the business session.

Mrs. H. S. Havens was hostess for the members of the Coterie yesterday afternoon at her home in North Harrison street. The guests enjoyed the afternoon over various kinds of needlework. Dainty refreshments were served by the hostess.

The Imperial orchestra which has been on the Keith vaudeville circuit for the past season, will provide the music at the Social club dinner dance Wednesday evening at the club rooms. Members of the orchestra are now attending college at Franklin college. Dinner will be served at 6.30 o'clock.

The neighbors and friends of Mr. and Mrs. John Warfield and daughter gave a beautiful pitch-in supper last Thursday evening for their daughter Alliene, it being in honor of her ninth birthday. The guests were Mr. and Mrs. Thomas Creek, Mr. and Mrs. Denzil Creek, Mr. and Mrs. Riley Stevens, Mr. and Mrs. Clarence Floyd, Mr. and Mrs. Jess Reitherford, Mr. and Mrs. James Dill, Mr. and Mrs. Albert Moster Mr. and Mrs. Sam Beaver, Mr. and Mrs. R. J. Hall and daughter, Mr. and Mrs. Earnest Berninger and son, Mr. and Mrs. Charles Boys and daughter, Mr. and Mrs. John Ziegler and daughter, Mr. and Mrs. James Warfield and daughter, Mr. and Mrs. James Aldridge and daughter, Mr. and Mrs. Ross Schrader and daughter, Mr. and Mrs. Thomas Miller, Mr. and Mrs. Hal Green and sons, Mr. and Mrs. Jake Parrish and the Misses Mary Anderson, Edith Hollensbee, Ada Williams, and the Misses O'Neal, Mrs. Ruth Scott of Indianapolis, Herbert Stevens, Willie Stevens, Richard Amshine, William Warfield. Following the supper the evening was spent in dancing and games. The music was furnished by Mr. Miller, Mr. Creek, and Mr. Moster.

ATTENTION K. OF C.

The Knights of Columbus will meet at their club rooms at 7.30 p.m. Wednesday to go to the home of Mrs. Bernard Madden.

Worthy of your interest and attendance

The Rush County Products Show

The following three days should be of particular interest to the residents of our suburban community, for they will have their proportionate chance for the splendid premiums offered and for the unusual premiums offered by this store — big and substantial savings on new and up-to-the-minute garments. These concessions are made with the express purpose of helping to attract for these few days an enormous crowd of our Rush county friends to the Products Show, that will be somewhat commensurate with the efforts that have made it possible.

These savings are sure - take advantage of them

The New Chappie Coats Greatly Reduced

Only last week a big shipment of these excellent coats for Misses arrived. You will concede that they are brimfull of style. No two are alike, they show a wide diversity of cloths and all have big shawl collars of fur. They were bought to sell from \$29.75 to \$39.75. During the Products Show, choose at

\$24.50

The Gift Store

A tour of inspection throughout this store will be for you now an immense store of information and will bring to your mind almost countless suggestions, that might otherwise tax you many wearisome hours. We have attempted to provide a vast assortment of giveable gifts, the kind that will be greatly appreciated. We will gladly lay aside anything you may choose. Do your share of keeping alive the Christmas Spirit.

An express shipment has just brought some of the prettiest coats we have had this season. They are of normandie, rivoli, bolivia, velour and plush, most of them fur trimmed. Some have the coveted loose panel back with long silk fringe, others have the attractive blouse back. The prices named will move them quickly.

\$35.00, \$39.50 \$45.00, \$50.00

Wonderful Values in Dresses

Our immense showing of dresses has been divided into several big price groups—at each price you will find exceptional values. Among them are dresses of satin, taffeta, crepe, canton, tricotine, poiret twill, whipcord and serge. Select yours tomorrow. We mention a few of the price groups

NEW FEATURES ARE TO BE INTRODUCED

Much Interest is Manifested in I. O. O. F. Initiatory Degree to be Given Wednesday Evening

ZOUAVE TEAM IN PROSPECT

Much interest in going manifested in the initiatory degree to be given by Franklin Lodge No. 35 I. O. O. F. Wednesday evening, owing to the new dramatic features introduced under the direction of John Teckenbrock, a noted instructor of Indianapolis. Scenic effects have been prepared by a theatrical artist and the electrical and properties by local talent. This is the first attempt in this section to confer this particular degree in spectacular form and visitors are expected from all neighboring lodges. Music will be furnished by the orchestra. New floor work is also included in the improvement in the degree.

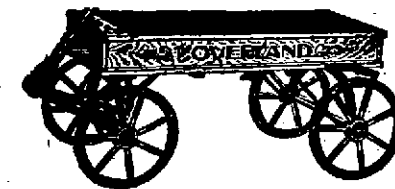

The prospects for the organization of a zouave drill team were discussed at the rehearsal last evening and it is probable that it will be done before Mr. Teckenbrock completes his work here. If the team is organized it will likely go to Detroit next September to appear in the parade which will be the feature of the Sovereign Grand Lodge meeting there. Over \$50,000.00 is offered as prizes by the committee in charge of the meeting and it is hoped to bring part of it to Indiana.

Mr. Teckenbrock organized the first staff the local lodge ever had in 1904 when the lodge had only eighty members; it now has nearly five hundred members and the growth and prosperity of the order here is attributed by the members to efforts of the degree staff working under his instruction.

Photographs are gifts you can easily afford to give, sit now. Wallace Photographer. 22816

Don't Burn Good Fuel in a Poor Stove.

TAKE

PEPSINCO

It's a useless waste of good fuel and needless extravagance to try to burn it in a poor stove. It is absolutely wrong to expect good food to supply energy, vitality, health and happiness, if your stomach won't absorb and assimilate it. If you cannot eat with enjoyment; if your food does you no good; if food distresses, rather than benefits, then you have indigestion or dyspepsia. The best remedy to use is PEP-SINCO.

Ask your druggist—he sells and recommends Pepsinco.

Former Rushville Boy Contributes Article To Wall Street Magazine

John H. Moffett, a Rushville boy who has gone far in his chosen profession, contributes an article to the November 12 issue of the Magazine of Wall Street regarding thrift and the relations of capital and labor, which has caused wide comment. Mr. Moffett is now professor of metallurgical engineering at the University of Minnesota in Minneapolis.

Mr. Moffett's article, the subject of which is "How a Mechanic Plans to Achieve Financial Independence", outlines how his meager savings from his boyhood days, properly invested, have provided him with an income whereby he will not have to live off the charity of friends in his old age.

Moffett says that during his 18 years' association with working men in many lines of industrial activity, he was an active enemy of capital. Prejudice and misunderstanding, he declares, blinded him to the extent that he embraced Socialism as his only salvation. Today, however, a different angle from which most workmen view it. He asserts that time has mellowed his radical opposition to the honest effort of capital.

Moffett, in his article, shows how his first investment, made in a gold-mining venture, when he was a boy, swallowed \$150 of his savings gathered from hard-earned wages in an iron foundry. While the loss caused much disappointment, Moffett declares that he regards the gold-mining venture as the best investment he ever made as the lesson drove him from blind speculation to ultra-conservative investment.

In his article, Mr. Moffett further says: "So 'ultra' did I become that my first thousand was entrusted only to the Postal Savings bank, paying two percent I was too wary even to trust a diversity of saving banks with my funds where they would have earned at least 50 per cent more. When the first Liberty Loan issue was floated, I had accumulated about \$1,500. After revolving the proposition in my mind through a long, brain-racking process, I reached a decision to invest \$500. Compared to 2 percent on postal savings the 3 1/2 percent on the bonds appeared like a bonanza. As the Liberty Loan issues progressed I became more bold and confident and the fear of having my money tied up in government bonds was overcome. From a \$500 investment in the first Liberty Loan I carried the allotments to \$1,600 in the fifth loan. My investments to date have cost me \$5,730 and yield 61 percent.

"All I ask of the Goddess is that she permit me to build my principal until it is large enough to return an income equal to what I could earn at my trade, working 300 days a year at \$6 a day. To carry out my plan of building an income of \$1,800 on a 6 percent return from a backlog of \$5,730, I found by the formula of computing compound interest it would require 25 years and 8 months. Although planning for the age of 60 makes one shudder at 33, the prospects of being without a competence at 60 is more fearful. This is brought to me more forcibly when I think of men, with whom I work at a calling, taxing a young man almost to the limit of endurance, who are beyond 60 and have no prospect of being able to stop before old age forces them to do so—and only because, when young, they did not methodically lay aside the little it takes to provide a competence for old age."

Mr. Moffett is now associate professor of the Metallurgical department at the University of Minnesota. He was at one time employed as an iron molder by Westling Brothers' company. He was a co-operative student in the engineering branch in the University of Cincinnati and received the second highest honor in the 1921 graduation class.

Hoboes Now Use Automobiles For Rides, Instead Of Trains

Truck and Touring Cars on National Highways Provide Many a Lift For Those Unable to Pay. Two Boys Journey From Iowa to Indiana Home by Begging Rides Along The Route

Mentone, Ind., Dec. 6.—Free rides by automobile and motor truck are taking the place of the stolen rides in former years so popular with a certain class. The principal difference is that in a majority of instances the traveler requests and is accommodated with a ride.

Along almost any much traveled road, particularly the Lincoln Highway and the Dixie Highway, it is now possible to get a "lift" of anywhere from a few miles to 50 or 100 miles. It is figured that anywhere one-third of motorists will pick up a pedestrian providing there is room in the machine.

A striking instance of this fact has been brought to light by the experience of two Indiana boys, whose parents live west of here and who recently disappeared from their homes. For several days nothing was heard of the youngsters. Forest

Richter and Kenneth Adams, aged 15.

Then a telegram from Marshalltown, Iowa conveyed the information to the parents that they were being held, awaiting instructions from their fathers. The parents of the youngsters wired the Iowa authorities, requesting the release of the lads. Three days later the boys turned up at their homes, having covered the entire distance from Marshalltown by requesting rides in automobiles. They declared that they did not walk a mile.

Their first lift was all the way from Marshalltown to the Illinois line, the next was from that point to Chicago, the fourth lift was to Gary. The next took them all the way to Leesburg, Ind., and the last landed them at home. In making the trip to Marshalltown, however, they "begged" and received rides in a total of 23 automobiles and trucks.

VIOLATION OF EGG LAWS ARE ALLEGED

Dealers in Northern Indiana Are Not Living up to Laws, And Investigation is Made

"COLD STORAGE" VARIETY

Fort Wayne, Ind., Dec. 6.—Eggs of an ancient variety, but labeled "cold storage eggs," are being sold in northern Indiana, according to an investigation being made here and in surrounding cities and towns. It also develops that the law requiring the handling of eggs by retailers is not being obeyed to the letter.

In many instances it has been brought out that the farmer has wrongly given the blame for spoiled eggs, sold to consumers by retailers, while the real fault lies with the cold storage houses that keep them for a rising market long after they should have been placed on sale.

Kosciusko county has stood well in the lead of all Indiana counties in the production of poultry and eggs. Last year that country had an average of 220,000 laying hens. The egg production in Kosciusko county was more than 1,000,000 dozen, but consumers there are complaining that because of the operations of outside buyers and cold storage houses they are compelled to pay New York and Chicago prices for eggs, regardless of the fact that outside buyers procure eggs in Kosciusko county at a much lower price.

TORONTO, Ont.—Raymond P. Van Camp, a prominent manufacturer of Indianapolis, Ind., caught the finest small-mouth black bass that was landed in the province of Ontario during the season of 1921, according to the judges in a contest conducted by a local newspaper.

Mr. and Mrs. Verne Lewis called on Mr. and Mrs. Phon Lockwood and family Friday afternoon.

Ed George was a business visitor in Milroy Monday.

Mrs. Edna Carr and Mrs. Nellie George spent Friday afternoon with Mrs. Jude James of Andersonville.

Women bandits, of which considerable has been heard of late, are not new to America. In the early nineties a section of Idaho was terrorized by a band of six stage-robbers, who, when rounded up at Salmon City, on April 4, 1892, were found to be all women, dressed in men's clothes.

Dyed Her Tan Skirt to Make Child a Dress

Each package of "Diamond Dyes" contains directions so simple that any woman can dye or tint faded, shabby skirts, dresses, waists, coats, sweaters, stockings, hangings, draperies, everything like new. Buy "Diamond Dyes"—no other kind—then perfect home dyeing is guaranteed, even if you have never dyed before. Tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.

TRUCKS ARRIVE FOR ROAD WORK

Thirty Liberty Trucks And Ninety
Tons of Equipment Are Given Over
by The Government

FOR USE ON STATE HIGHWAYS

Allotment Also Will Include 70
Trailers For Use by State High-
way Department

Indianapolis, Ind., Dec. 6.—Guarded by a convoy of ten Indiana National Guardsmen, George Bartley, chief of the motor transport of the state highway department, has just brought to this city a rain of thirty class B. Liberty trucks, from Jeffersonville. The train also carried ninety tons of supplies chiefly expensive motor parts, and the total value of the trucks and equipment about \$125,000, according to Lawrence Lyons, department director. The consignment of trucks and equipment is a part of an allotment to Indiana from the Federal government, and will be used in state road construction and maintenance.

There remains to be conveyed, seventy trailers with cargo bodies, which also have been released to the highway department, and which Mr. Bartley will bring here within the next few weeks. A convoy of soldiers is necessary, highway officials explained, because of the value of the equipment which must be carefully guarded enroute and which guard continued for one night after arrival of the train here until such time as the trucks could be taken to the Fair Grounds for temporary storage.

A feature of the motor train was that the Standard Oil Company had tanks of gasoline and oil scattered all along the route to supply any trucks in the event they were cut off from their supply line. Two expert mechanics followed in the rear of the line to give aid to any stragglers.

The Class B. Liberty trucks are new, none having been run as much as one hundred miles at the time they were turned over to the highway commission. In fact all the equipment the department is now receiving from the Government is new, with the result officials say, that much more work will be possible at less expense than was possible from a great deal of the early equipment received from the Federal aid source.

According to Mr. Lyons the Indiana highway department at this time has approximately 600 trucks which will be used in road work. The last consignment from Jeffersonville will be equipped with hydraulic power hoists and dump bodies before they are introduced into service.

ASPIRIN

Name "Bayer" on Genuine

Warning! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacid-ester of Salicylicacid.

TRESPASS LAWS NOT UP TO GAME WARDENS

Farmers Have Wrong Impression
About Wardens Enforcing Laws
on Violators For Trespassing

IS ANOTHER STATUTE

Indianapolis, Ind., Dec. 6.—According to numerous inquiries reaching the office of the state board for the conservation of wild game and fish, many farmers throughout Indiana are under the impression that it is the duty of deputy game commissioners to prosecute hunters who trespass upon lands of farmers.

In many part of the state in recent weeks farmers have banded together and have caused to be inserted in newspapers and placed on sign boards warnings against hunting upon their premises. The idea apparently has become quite general that when such warnings are given it is the duty of deputy game commissioners to prosecute persons charged with trespass. The deputy commissioners, however, have nothing to do with the prosecution of the game and fish laws, states the conservation board.

November is the record month for the issuance of hunting licenses in Indiana. From several counties in the northern part of the state have come reports that all previous records for the issuing of hunting licenses will be broken this season. In addition to the permits issued to hunters who are residents of the state many non-resident licenses have been issued at a cost of \$15.50 each. It costs a resident of Indiana but \$1 to procure a license in this state.

Reports reaching the office of the state board the last few days indicate that "squirrels, rabbits and ducks and quail have been quite plentiful.

WEALTHY WOMAN UPHOLDS DOCTOR

Mrs. John Mitchell of Chicago Heads Fight to Prevent Hospitals From Excluding Dr. Lorenz

CURED HER WHEN A CHILD

Suffering From Hip Trouble, She Was Relieved by Physician Who is Subject of Attack

J. L. O'SULLIVAN
(U. P. Staff Correspondent)

Chicago, Dec. 6—Lolita Miller Mitchell, daughter of the millionaire packer and Chicago's wealthiest woman, today led the fight against doctors who have closed doors of Chicago hospitals to Dr. Adolph Lorenz, world famous orthopedic surgeon.

Mrs. Mitchell, who was cured of hip trouble while a child by Dr. Lorenz said in an interview with the United Press, she would do whatever she could to "repay the debt I owe Dr. Lorenz for my health and happiness."

Mrs. Mitchell was busy arranging her new home on the "gold coast." She had just returned from her honeymoon, having recently married John J. Mitchell, banker's son, uniting the two largest fortunes in Chicago.

"If Dr. Lorenz's visit here would result in a cure for one child now facing the life of a cripple, it would be worth while," Mrs. Mitchell declared. "One cure would not only give happiness to one poor child, but would give encouragement to hundreds of others."

"Dr. Lorenz is undoubtedly a much

We Again Address You

on the subject of Straight Savings, at your convenience, without frills or "red-tape." We call your attention to the following important points which are only some of the many advantages to you.

INTEREST. Your account will be credited on January 1st and July 1st, with interest at the rate of 6 per cent per annum, not 3 per cent or less. Remember this.

PAYMENTS. Failure to make any payment does not forfeit interest due you. It would not be fair to you if it did. Consider this while planning your Savings.

WITHDRAWALS. These can be made at any time without previous notice. All you have to do is to bring in your Pass-book.

SECURITY. Every dollar of your deposit is invested in Rush County or Rushville real estate mortgages. We never loan over 75 per cent of the actual cash value of the property, generally much less. Appraisements are made by a committee of the shareholders and not by the officers. Don't this look safe?

EXAMINATIONS. We are under rigid annual examinations by the Auditor of State and are examined just the same as banks and trust companies.

BONDS. Our active officer is under a heavy Surtty Company Bond for the faithful performance of his trust.

INSURANCE. We carry insurance against Day-light Hold-up and Night Burglary just the same as Banks and Trust Companies.

OUR AGE. We have been in business over a third of a century and are the oldest and original home for Savings in Rush County.

DEPOSITS. Remember that no account is too small to receive our best attention and neither is any deposit too large for us to properly handle.

REMEMBER. That all amounts that you have to your credit on December 31st begin to draw 6 per cent per annum, not 3 per cent on January 1st, 1922.

HOURS. We are open from 9:00 a. m. to 4:00 p. m. each day and on Saturday nights we are open for your convenience from 6:30 to 7:30 p. m.

INFORMATION. That is not set out above will be cheerfully given by the officer in charge.

You will surely want one in your home Xmas. Come in right now and buy if you want one. We will deliver Xmas or any time to suit you.

Big Cut-Price Sale on our Entire Stock

WE MUST SELL—therefore we have hammered down the prices to the lowest so people can buy.

(WE ARE PREPARED TO GIVE EASY PAYMENTS)

Phonograph and Piano Manufacturers have reduced prices. Prices are now down to rock-bottom—even lower than before the War. We can prove that we know what we are talking about—why not? We deal exclusively in Musical Merchandise. We are in close touch with market conditions at all times. Some dealers are still holding out for high prices as though the war wasn't over — these dealers buy from jobbers. We have been advocating lower prices for the past two years. Whenever the factory prices reduced we in turn reduced our prices, giving our trade here at home the benefit. Buy musical goods at this strictly up-to-date music store—at strictly up-to-date prices — the lowest prices always.

Period Phonographs — Pianos — Player-Pianos — Columbia Gramophones — Everything in Music — Violins — Cornets — Clarinets — Small Instruments of every description are sold by this store. Beautiful and serviceable Xmas presents in Musical Merchandise at the Lowest Prices.

better orthopedic surgeon than any we have in this country. He proved that when he cured me after all other leaders here failed."

Mrs. Mitchell answered the claim of Chicago surgeons that they looked with disfavor on the "newspaper notoriety" which Dr. Lorenz has received since coming to this country.

"Although Dr. Lorenz has received a great deal of attention and publicity, I am sure it was not because he desired it. He always opposed publicity, but newspapers made much of him because he was a 'good story.' He wanted to be agreeable and help the newspaper men."

Mrs. Mitchell whose hip trouble had been pronounced incurable by many surgeons in this country, as a result of Dr. Lorenz's treatment, is now healthful and happy. She is noted among the Chicago social set for her athletic abilities.

"Dr. Lorenz saved me from the life of an invalid," she said. "I am going to do whatever I can to defend him from this attack."

Applications to local hospitals to permit Dr. Lorenz, who is now in New York to hold clinics in Chicago hospitals were turned down. It was here that Dr. Lorenz gained his greatest fame and fee when he was claimed to have cured Lolita Armour of a hip disease from which she had been suffering for years, for \$100,000.

A statement issued by the Orthopedic surgeons of Chicago gave as the following, reasons for their opposing Dr. Lorenz a visit

That although he has claimed publicity he came to America to "pay back this country for help given starving Austrian children, he has admitted in letters to friends the real reason is to retrieve his personal fortunes.

Because Chicago doctors "look with disfavor on newspaper notoriety of the loose sensational type." Because of danger of arousing hysteria among many cripples leading to disappointment if they are not cured.

That after Dr. Lorenz left following his first visit, those "who came in contact with many cases upon which he had operated saw results which they were glad they were not responsible for."

The results obtained by Americans "are just as good."

That if the Dr. Lorenz visit can be "put over," it will not be long before similar visits can be expected from representatives of other medical lines.

Doctors pointed out that no European nation recognizes the right of an American physician to practice there. They declared when Dr. John B. Murphy performed his famous "button operation" in Rome, he was forced to operate on a dog.

MARINE GUARD ARRESTED

Beaumont, Tex., Dec. 6—T. A. Willis, marine guard on a Kansas City Southern train, was arrested by a deputy sheriff at the station here at request of Shreveport civil authorities following slaying of Wiley Clark at Shreveport. Willis was turned over to the squad of marines on duty here.

RICHLAND BOY IS WITH DELEGATION

Cecil Pike, Rush County Boys' Club
Member, Visits American Farm
Bureau Headquarters

IS REWARD FOR GOOD WORK

Secretary J. W. Coverdale Speaks to
Delegation on Occasion of Their
Club Rally

Cecil Pike, club member from Richland township, was one of five hundred and fifty farm boys and girls from 30 states who visited the American Farm Bureau Federation headquarters last Wednesday afternoon at Chicago. These children, ranging in ages from 10 to 19 were given this week's trip to Chicago as a reward for raising prize live stock or grain or excelling in cooking or sewing or other phases of boys' and girls' club work. Their trips were financed by their local banks, county farm bureaus, state fair associations interested individuals, and various business organizations.

Secretary J. W. Coverdale, a member of the board of directors of the National Committee on Boys and Girls Club Work, spoke to the delegation at their club rally on Monday night. "I know that I am talking to an audience potentially great," he said. "I have seen the club boys and girls grow up into successful farmers. Some of the best-known county agents and home demonstration agents have come from your ranks. May club women have gone to agricultural colleges. There are 1,800 club boys and girls now attending college. You will be

expected to follow in their footsteps. Perhaps the future head of the Department of Agriculture is present tonight and the girl who will sometime be queen of the White House. (Continued on Next Page)

Serum Merely Prevents Loss- es Does Not Eliminate Cholera

Some persons think that the use of anti-hog-cholera serum has become so general that we are far on our way toward the elimination of the disease, but, according to the United States Department of Agriculture, a clean-up of cholera can not be expected through the use of this method. Besides, only a small percentage of the hogs in the country are treated each year and there is also almost a complete turnover of the swine population each year. Every 12 months we start with a new lot of pigs and the fight against disease must start at the beginning again.

About 500,000,000 cubic centimeters of serum are used every year, which means that, counting 50 cubic centimeters for each hog, only about 10,000,000 hogs are treated. In recent years there have been around 70,000,000 hogs in the country on January 1, according to Federal crop estimators, which means many more hogs in the spring and summer. If all these hogs were treated cholera would not be eliminated. It would simply be important to kill many hogs for one season and would begin to kill again the next season if serum were not used. Serum treatment, like insurance, can not be allowed to lapse.

INSTITUTES ARE STARTING OUT BIG

tendance According to First Re-
ports Reaching Purdue

FORMALLY OPENED NOV. 15

Institute Season to Continue
Through February, With Total of
464 Scheduled in State

Lafayette, Ind., Dec. 6—Farmers' institutes, the first form of agricultural extension work ever conducted in the state, have started big in Indiana this year, registering unusual interest and attendance, according to first reports reaching the Agricultural Extension Department of Purdue University. The institute season opened formally Nov. 15 with several meetings in the south part of the state.

A total of 464 institutes were scheduled, 27 coming in November; 108 in December; 194 in January, and 135 in February. They will be

Clover Helps Increase Corn and Wheat Yields By Supplying The Plant Food

By S. D. CONNER

Purdue Experiment Station
The nitrogen question is the most
important soil fertility problem be-
fore the corn-belt farmer.

Investigations by Purdue on vir-
gin and cropped soils at 31 localities
in Indiana show that there has been
a loss of 27 percent nitrogen

caused by cropping. The loss of acid
soluble phosphorus and potash
was only about 10 percent.

On Purdue Experiment Station
plots, started in 1889 and cropped
in wheat continuously without fer-
tilizer for 32 years, the loss of ni-
trogen has averaged 42 pounds per
acre per year, a total of approxi-

mately 25 percent of the original ni-
trogen. The loss of nitrogen with
continuous wheat has been about
one-third more than that removed
in the crop.

Nitrogen losses are greater in soil
cropped to corn than they are in soil
in wheat. This is due to the more
active nitrification of cultivated
soil in corn, as well as to the great
amount of nitrogen removed in the
crop. In monthly tests at Purdue in
1920, there was four times as much
nitrates in the soil in corn as there
was in soil in wheat or oats.

Clover Increases Corn and Wheat Yields By Supplying Plant Food

Continued from Page One

While the soils of the midwest may be ideally situated for great efficiency in nitrogen supply, there is no question but that greater efforts

must be put forth to replenish and conserve nitrogen. Only about one-tenth of the cultivated land in the midwest is in legumes. More legumes must be grown before the decline in nitrogen will stop.

On three Indiana experiment fields

where corn, wheat, clover has been compared to corn, wheat, timothy, corn has averaged 6.5 bushels more and wheat 3.6 bushels more with clover than with timothy.

Lime, phosphate and potash are particularly valuable in aiding to

get good legume crops. When used with legumes they act to a certain extent as indirect nitrogenous fertilizer. Until more legumes are grown some nitrogen in the fertilizer will prove profitable on the thinner soils.

RICHLAND BOY IS WITH DELEGATION

Continued from Page One

Greater club work means a greater America". Secretary Coverdale asked the 550 boys and girls how many came from Farm Bureau

homes. All but three hands were raised.

Club membership has grown since 1914 from 23,000 members to 321,000. In 1920, these club members produced products worth \$8,985,092.93.

MEANS \$40,000,000 A YEAR TO PRODUCER

Comment of Clifford Thorne on Grain Rate Decision of Interstate Commerce Commission

FARM BUREAU PLAYS BIG PART

"This little document means a saving of \$40,000,000 per year to the producer", said Clifford Thorne, Director of the Transportation Department of the American Farm Bureau Federation, as he presented the Nov. 21 decision of the Interstate Commerce Commission in the Grain Rate Case. "This is the largest reduction ever ordered by the Interstate Commerce Commission in its entire history", declared the American Farm Bureau Federation's Legal Counsel.

The Decision affects rates on grain, grain products and hay in carloads between points in the West-

tern and Mountain-Pacific Groups. The American Farm Bureau Federation intervened in the grain case, and presented the bulk of the evidence.

Where the increase on Aug. 26, 1920, amounted to 25 percent, the reduction shall be 12½ percent. Where the increase on Aug. 26, 1920, amounted to 40, 35 or 33½ percent, the reduction in rates shall amount to 20, 17½ and 16¼ percent, respectively. In other words, the Commission reduced the Aug. 26 1920, increase by 50 percent.

INSTITUTES ARE STARTING OUT BIG

HAS ACTUAL CASH VALUE CO-OP FIRM BEGINS JAN. 1

Extension Department of Purdue Benefits Farmer at Least

Lafayette, Ind., Dec. 6.—Agricultural extension work as carried on by Purdue University has an actual cash value to the steadily growing number of farmers who take advantage of the services offered. This was shown by hundreds of men in all parts of the state, one of the striking examples of which was Sam VanderWal, a Lake County truck grower.

Mr. VanderWal followed the directions of Purdue botanists in planting a cabbage variety that would resist yellows, one of the most serious cabbage diseases. He was paid a premium of \$5 extra per ton on his cabbage, which yielded 35 tons to the acre.

L. S. Robertson, M. H. Overton, C. A. Norman, F. C. King and Ben H. Petty.

First Live Stock Commission Business Will Open For Business

The first of the farmer-owned and controlled co-operative commission firms to be established according to the adopted plan of the Farmers' Live Stock Marketing Committee of 15 will open for business at National Stock Yards, Ill., on January 1, 1922. The new firm will be called the Producers' Live Stock Commission Association and will have its headquarters at 34 and 35 Exchange Building, National Stock Yards, Ill. The members of the board of directors are: C. B. Denman, Farmington, Mo., Chairman; Joseph Fulkerson, Jerseyville, Ill.; A. E. Crum, Virginia, Ill.; W. W. Faqua, Monroe City, Mo.; C. B. Huntley, Chariton, Ia.; L. O. Grieser, Ursa, Ill., secretary-treasurer.

Seranton, Pa., ranks first among coal-mining cities of the world.

HESSIAN FLY ON INCREASE

Rate of Growth Much Larger Than Ever Before Believed

If it were not for its parasitic enemies and unfavorable weather, the Hessian fly would increase in such vast numbers that wheat growing in this country would be practically impossible inside of two years. The United States Department of Agriculture, as a result of recent studies, now published in Department Bulletin 1008, Rate of Multiplication of the Hessian Fly, by W. R. McConnell found that the increase in breeding of the insect was much higher than had been before realized. The data collected afford an explanation for the very sudden development of a Hessian fly outbreak and furnish a basis for predicting more accurately the approach of a dangerous infection.

The December Records

The December Records are very beautiful — and unusually good. Everything from Banjo to Classic. There's a good Santa Claus Record for the kiddies.

Christmas Records

We suggest "Silent Night" by Schumann Heink, "Ave Marie" and "Elegie" by Caruso, "Adestes Fidelis," by John McCormack—all wonderful records by wonderful artists.

Get your
Christmas Victrola
early while our stock is complete

Each year at Christmas time there is a demand for Victrolas and Victor Records. This is especially true of the more popular styles of instruments.

Our advice this year is to buy NOW, paying a small amount to hold the machine and the rest in weekly payments.

We will deliver the machine for you on Christmas Eve. At this time our stock is complete. We are showing Victrolas of almost every style and finish. But these will not last long and we urge most emphatically that you buy NOW.

The world's greatest musicians make records exclusively for the Victor. This perhaps is one of the highest tributes paid the Victrola, for if this instrument did not reproduce the art of the world's most noted artists exactly as they want it to be reproduced, the Victor could not boast of their host of artists. For your friends who own a talking machine, we suggest that you give them a selected list of records as a Christmas gift. Come in and we will gladly play your favorite music. Music is always appreciated and what better music can you find than that of the world's greatest artists as offered on Victor Records.

Concerning the Genuine Victrola

The Victrola is the pioneer of all Talking Machines. It is made of the best materials obtainable and MADE COMPLETE IN ONE FACTORY. The quality of Victor products is of the best. There is nothing "cheap" or "just as good" about a Victrola. It is made ENTIRELY by SKILLED WORKMEN and will stand the strain of TIME. For example: The CARVING of the genuine Victrola is ALL DONE BY HAND—by master wood-workers, and carved out of solid wood. It is not made of glue and sawdust and tacked on. We invite you to come in and inspect the genuine Victrola and compare it with other machines as to tone, workmanship, durability, beauty of design, and, in fact, in any way you care. And back of it all stands not only our own guarantee but also the guarantee of the Victor Talking Machine Company, the largest and oldest manufacturers of talking machines in the world. Be content with only the GENUINE and look for the famous Victor trade mark.

GEO. C. WYATT & CO.

FARMERS MAY NOT CALL STRIKES

This Was Emphatic Expression of John G. Brown President of Farmers Association

TO SETTLE DOWN TO NORMAL

States That Buying Power of the Farmer is About Two Thirds Normal—Manufactured Goods High

Indianapolis, Ind., Dec. 6—Strikes may not be called by Indiana farmers on account of low grain prices. They do not intend to let their corn land lie fallow next year. This was the emphatic expression of John G. Brown, president of the Indiana Federation of Farmers' associations, today. "The inertia of war production influenced farmers to raise too much last year. Now they are preparing to settle down to normal rotation", he said.

"Much of the land has lost fertility on account of overproduction. To conserve and maintain fertility, legumes will be sown in many places. The legumes put nitrogen, one of the principle constituents of grain, from the air back into the soil by means of bacteria colonies on their roots. Some of these are clover, sow beans and cow peas."

Brown also stated that the buying power of the farmer is about two-thirds normal. The cost of manufactured products is high as compared with the prices of farm products.

"From 1909 to 1914 a set of harness could be bought for 44 bushels of corn. At prices which now prevail it takes about two and one-half times as many or 115 bushels. During the five years preceding the war a plow could be bought for 16 bushels of corn; now it requires forty-one for its purchase."

"When farmer purchasing power is low, it causes unemployment in the city. This is very costly to both consumer and producer and puts the farmer back on a self-sufficing system of agriculture."

Manure Needs Phosphate To Make It A Complete Fertilizer, Purdue Finds

By S. D. CONNER
Agricultural Experiment Station,
Purdue University

The reinforcement of manure with acid phosphate for soil improvement may be compared to the use of tankage as a supplement to corn in fattening hogs. Corn is the most common and best feed a farmer can use. Likewise manure is the commonest and best material a farmer can use to feed crops. Up-to-date feeders recognize now the value of a protein supplement to corn. It is just as important to add phosphate to balance the farm manure as it is to add tankage to balance corn. There is nothing strange about this if we stop to think.

When crops are fed to animals, most of the potash is returned in the manure in different parts of Indiana great deal of the phosphorus. The animals are sold and the phosphate goes off the farm. By returning the

manure to the land and growing a legume to help furnish nitrogen, there is no serious deficiency except phosphate. This element must be added either to the manure or applied separately to the land.

The Purdue Experiment Station has been conducting experiments on the value of phosphate in addition to manure in different parts of Indiana for the last ten years. Approximately six tons of manure were used each three years. The phosphate used amounted to about 300 pounds of acid phosphate per acre, or 600 pounds raw rock phosphate. Where acid phosphate was used in addition to manure, the average increase per acre on 3 fields has been 8.3 bushels corn, 3.2 bushels wheat, and 665 pounds of clover. The increase due to raw rock phosphate has been 4.4 bushels corn, .6 bushels wheat, and 300 pounds clover. Acid phosphate has shown a profit on all crops when

used in addition to manure. Raw rock phosphate has not been profitable at present farm prices except on the Bedford field on unlimed land.

The Purdue plan of soil building includes good drainage; a rotation of crops, including a legume; the feeding of roughage and corn to livestock, so far as this can be done profitably, and the conservation and use of all farm manure and crop residues; the use of acid phosphate in addition to manure; the use of lime on acid soils; and in special cases, where the land needs it, the use of nitrogen and potash in addition to phosphate. By this plan the largest and most profitable crops can be grown.

FORM FINANCE COMPANIES

War Finance Corporation Will Help Live Stock Industry

"A number of important finance companies are being organized throughout the country to assist in the financing of the live stock industry, with the co-operation of the War Finance Corporation", states Eugene Meyer, Jr., Managing Director of the War Finance Corporation, to the American Farm Bureau Federation. "A Utah company, with a subscribed capital of \$500,000 will make live stock loans in Utah and Idaho. Wyoming has formed a loan company with \$300,000 paid up capital, and the War Finance Corporation's loan of \$215,000 announced last week was made through it. Western Nebraska bankers have organized a \$200,000 live stock loan company."
